LEARNING POST

HIGH SCHOOL

June, 1988

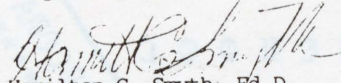

Dear Graduates:

June 20, 1988, is a very special day for you and for your family. It is your graduation day and the culmination of 13 years of formal education.

Graduation is not, however, the end; rather it is a beginning. For some it will be the beginning of a full-time career, for others it will be the beginning of additional formal study, but for all it will be the beginning of a new and different life. It is our hope that we have prepared you to accept and meet the challenges that this new life will bring.

On behalf of the Board of Trustees of the Wm. S. Hart Union High School District, I congratulate you on what you have achieved and wish you the best in the years to come.

Very truly yours,

Hamilton C. Smyth, Ed.D.
District Superintendent

June 1988

Dear Graduates:

Graduation: What does it mean? Webster's Dictionary defines to graduate, "as to pass from one stage of experience, proficiency or prestige to usually a higher one". For you, it means your last twelve years of school have been successful. You took the time to study, you completed your work, you did what you said you would do. Now you move on to the next level of learning.

Graduation is your introduction to new vistas and new adventures. This is the time when you take control of what you learn, when you learn, how much you learn and what you do with your learning. I look forward to each of you returning to the Learning Post in five years and sharing your experiences and successes. We are proud of your past achievements and we look forward to your new accomplishments.

Congratulations!

Sincerely,

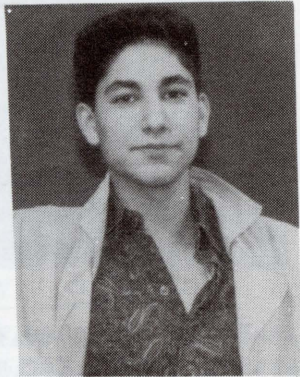

Judith K. Webber, Ed.D.
Principal
