Disney Ranch continues to flourish with sound stages and production facilities planned with the build out of the Disney/ABC Studios at the Ranch project.

OLD TOWN NEWHALL is one of Santa Clarita's most-distinctive neighborhoods and most-filmed areas in town. Numerous locations around Main Street have been featured in films such as *Suddenly*, *The Grifters*, *Behind the Candelabra* and *Bridesmaids*, along with hit shows like "Criminal Minds," "Switched at Birth," "Baskets," "Sons of Anarchy," "Justified" and more.

For nearly a century, the Santa Clarita Valley has maintained its position as one of Hollywood's most frequently filmed locations and favorite places to make movie magic. Santa Clarita has been, and will continue to be, shaped by an industry that contributes to the local economy, brings prestige to the community and captivates the world.

SANTA CLARITA COWBOY FESTIVAL: AN INSIDER'S GUIDE

With five stages of live music - ranging from cowboy to folk to bluegrass - plus cowboy-themed eats, all manner of western gear and a huge variety of living history-type activities to explore, the Santa Clarita Cowboy Festival is one of the most popular events of the year.

From celebrating Santa Clarita's Western heritage, to the must-see highlights of this world-class event, find out what to expect at the City's 25th annual Cowboy Festival in this special insider's guide.

Home to some of the most prominent historical sites in Southern California, the City of Santa Clarita is the perfect spot to host the county's annual Cowboy Festival - an authentic tribute to the traditions of the Old West - which attracts more than 8,000 visitors each year.

Held on the extensive grounds of the beautiful **William S. Hart Park and Museum**, the former home of the first cowboy movie star, festival-goers can explore the museum's impressive collection of Western American art, as well as pay a visit to neighboring **Heritage Junction**, home to the early 20th century Saugus Train Station and several other well-preserved historical buildings.

Enjoy the sounds of the Old West (with a modern twist) across five stages at this year's Cowboy Festival. Expect an eclectic lineup of new and returning Cowboy performers, plus additional musical genres - ranging from Bluegrass to Folk to Alt Country - taking to the stage with ticketed performances at various venues in Old Town Newhall. Previous notable performers have included The Sons of the San Joaquin, Don Edwards and Hot Club of Cowtown.

From cowboy-themed eats to cowboy hats, the Cowboy Festival is the perfect place to sample the authentic dishes of times gone by, as well as purchase that Western accessory you've always dreamed of. Browse all manner of Western merchandise and get a taste of the old days from vendors who've gathered from across the country. A tasty serving of Cowboy Cobbler from the Rotary Club is well worth lining up for!

No Cowboy Festival would be complete without some good old panning for gold and you can try your hand at this - plus a whole host of other authentic Western past-times. Experience the cowboy lifestyle as you hone your archery skills, relive the old days as you rope a mechanical calf, and see how the professionals do it, with regular performances of everything from gun spinning to trick roping. Plus, be sure to leave time to explore the engaging living history activities, including learning about the camp life of the Buffalo Soldiers and Native American lodges.

With so much to see and do, it's important to plan your trip to the Santa Clarita Cowboy Festival early. Free parking and round-trip shuttle service to and from William S. Hart Park are available.

For ticketed performances at venues in Old Town Newhall, book well in advance via the **CowboyFestival.org** website.

Interesting tidbits

In 1876, Charles Alexander Mentry discovered California's first commercially viable oil well in Pico Canyon. Known as Mentryville, the site is home to the longest continually producing oil well in the world, operating from 1876-1990, and remains a California State historic landmark that you can visit today! Historic buildings still stand on the site and are often featured in TV shows and films.

The oldest attraction at Six Flags Magic Mountain is the Grand Carousel, which was built in 1912 by the Philadelphia Toboggan Company.

William S. Hart, the famed silent film actor and director, produced a series of hit Western movies in the early 1900s. You can visit his beautiful Spanish Colonial Revival Style Mansion, now the William S. Hart Museum, which exhibits an impressive collection of Western artwork by noted artists Charles M. Russell, Frederic Remington and Joe de Yong, as well as mementos from early Hollywood, personal furnishings and effects and artifacts representing multiple Native American cultures. The Museum is a member of the Natural History Museum of Los Angeles County and offers free tours.

Santa Clarita's varied topography, 20+ sound stages, 10+ movie ranches, and thousands of film-friendly locations combined with the City's location within the "30-Mile Zone" (in proximity to Los Angeles), make it one of the most-filmed areas in California.

Just 20 minutes north of Hollywood Burbank Airport, Santa Clarita is located in a picturesque valley nestled in the Santa Susana Mountains, between Interstate (I-5) and Highway 14 (SR-14), making it easily accessible from anywhere in California.

History

The California region where gold and oil were first discovered and filming originated, Santa Clarita takes pride in its rich western legacy.

News of oil in the area led to the collaborative efforts of Beale and Pico to successfully drill for and strike oil in 1876, later moving their operation from Pico Canyon to the "Pioneer Oil Refinery" on Pine Street in the Newhall area, making it the only productive refinery in California at the time.

Rapidly growing in popularity, the Newhall area became a functioning town of small stores, saloons, congregations, schools and more, lending itself to become an ideal filming location. Western legends such as John Wayne, William S. Hart and Roy Rogers marked Santa Clarita as a legendary western filming location.

Though the prosperity of Santa Clarita is evident, horror struck on March 12, 1928 as the San Francisquito dam collapsed, killing 470 people. Later the crisis was called the second worst disaster in California history. When the dam was built under the direction of William Mulholland, the reservoir was considered an integral part of the City's Los Angeles Aqueduct water supply infrastructure.

Roy Baker purchased a 40-acre tract and built a rodeo in Santa Clarita in 1923. After the dam collapse, a new owner started hosting open wheel racing on the site in 1939. Crowds of 10,000 to 12,000 attended. Eventually the 1/3 mile racetrack became Saugus Speedway and hosted many races, including the NASCAR Craftsman Truck Series, before closing in 1995.

Santa Clarita is where it all began. Dating back to the year 450, the Tataviam tribe settled in a mountainous region, later named Santa Clara by Spanish migrants. As conflict lead to revolution in Mexico, Spanish soldiers fled to the Santa Clara region in search of mission sites and named the region in honor of St. Clare, later calling the local river "little" Santa Clara. The valley was then later named accordingly and took the name of Santa Clarita.

In later years, a gentleman by the name of José Francisco de Gracia Lopez began searching the area for deposits of gold. Six years before the gold discovery at Sutter's Mill, Lopez struck gold in March of 1842 at Placerita Canyon under what is now known as the Oak of the Golden Dream. The news quickly spread and attracted many migrants to the area, though mining efforts were halted due to the Mexican-American War.

After a peace offering was made in 1863, a victorious U.S. General Edward Beale and his troops sliced a deep cut through the Newhall Pass, now called Beale's Cut, to allow for easier access through the valley and to finish a project started years earlier by Mexican General Andrés Pico.

Filming in Santa Clarita began shortly after the turn of the 20th century with a veritable Who's Who of actors including William S. Hart, Charlie Chaplin, Tom Mix, Harry Carey and John Wayne. Hart and Carey made their homes in the Santa Clarita Valley; today both homes are operated as county parks. An endless string of hard riding, shoot-em-up western films have filmed at Melody Ranch Motion Picture Studio, a historic movie ranch in Santa Clarita. Legendary cowboy actors, including Gary Cooper, Roy Rogers, Bill Boyd and John Wayne filmed their westerns here. Melody Ranch is still used frequently today and was most recently home to HBO's acclaimed series "Deadwood" and newest addition "Westworld" among other modern day commercials, television shows and movies, such as Django Unchained.

Santa Clarita's western roots and influential pastimes have ultimately led to a prolific, beautiful and safe community that is rich in old traditions and new innovations. Head to SCVHistory.com to learn more.

Discover its numerous pioneer town highlights and iconic film locations as you explore its historic streets, and be sure to leave time for plenty of shopping, dining and entertainment once you're done sightseeing. This neighborhood has it all!

Start your self-guided tour at Heritage Junction Historical Park; a free attraction that houses a number of notable 19th and 20th century buildings, as well as the Santa Clarita Valley Historical Society itself.

Take a peek at Callahan Schoolhouse, a great example of the small schools used in frontier settlements during the late 19th century; learn more about Ramona Chapel, made famous in Helen Hunt Jackson's novel Ramona and used by John Wayne as a movie set; and explore the 4,000 square foot Newhall Ranch House - a two-story Victorian home said to be haunted by spirits of the past.

Next, delve inside the Saugus Train Station Museum, where Theodore Roosevelt stepped in 1903. Its fantastic museum - featuring railway artifacts and historical exhibits about the wider Santa Clarita Valley - is only open on weekends and has expert docents on hand for tours. Visiting the first Sunday of the month? Make the most of monthly, docent-led tours of Kingsbury House, an outstanding example of colonial-revival architecture, first built in 1878.

Just up the hill is William S. Hart Park and Museum, named for the famed silent film actor and director who produced a series of hit Western movies in the early 1900s. The beautiful Spanish Colonial Revival-style mansion that now houses the museum was once this icon's retirement home. Its impressive exhibit includes a large selection of Western artwork and Hollywood mementos, displayed across its main building and 1910 Ranch House. Free guided tours are available year-round.

Hart Regional Park's extensive surroundings are a great place to spend an entire morning or afternoon connecting with nature, history and Hollywood! Meet the park's collection of friendly barnyard animals, spot its herd of American bison that was gifted by Walt Disney himself, explore its hiking trails or simply pause for a picnic lunch.

Similar in style to the Hollywood Walk of Fame, take a stroll along the free Walk of Western Stars, where the City pays homage to its Old West roots and rich film culture. From John Wayne and Roy Rogers to Bruce Dern and Richard Farnsworth, more than 70 actors, directors and film professionals have been honored here for their valuable contributions to Western cinema.
