Valencia High School

Every morning we rise before the sun and drive to Valencia, the "technology" school. I think most of us would rather follow nature and rise with the sun. Although when it comes to how to get to school I believe few of us would give up the drive for a walk. Perhaps we are most willing to accept technology when it aids us and choose nature when technology fails or proves disagreeable.

It would be impossible to find anyone who outright supports all forms of technology: the Internet junkie who hates

nuclear warfare or the disk-man-toting student who curses keyboarding. In the same manner, very few people are willing to wholeheartedly support nature. Even the hippies drove VW buses burning fossil fuel. To find purity in either extreme would be futile, but it is up to us to choose the direction we go. It is up to our generation to decide, to weigh the consequences, and to stand up to our decisions.

We can plant wires or roots, towers or trees, circuits or seeds. Either way, it's our turn to plant the future.

# All Watched Over by Machines of Loving Grace

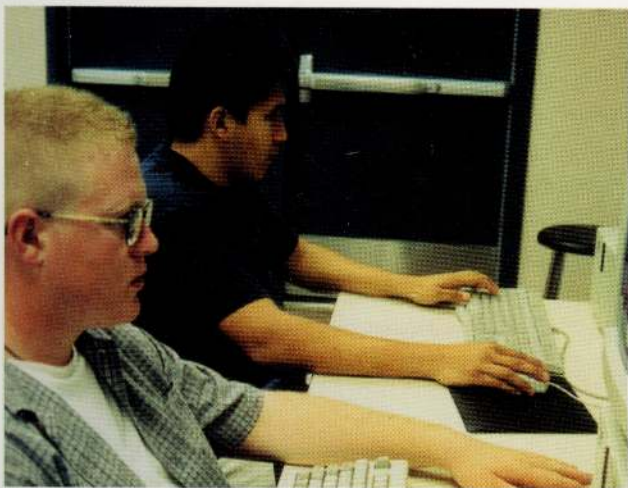

Richard Brautigan

I like to think (and  
the sooner the better!)  
of a cybernetic meadow  
where mammals and computers  
live together in mutually  
programming harmony  
like pure water  
touching clear sky.

I like to think  
(right now, please!)  
of a cybernetic forest  
filled with pines and electronics  
where deer stroll peacefully  
past computers  
as if they were flowers  
with spinning blossoms.

I like to think  
(it has to be!)  
of a cybernetic ecology  
where we are free of our labors  
and joined back to nature,  
returned to our mammal  
brothers and sisters,  
and all watched over  
by machines of loving grace.

Does the rapid growth in our valley and school concern you? How? Does it affect you?

**ROOTS** Nicole has been both camping and hiking. Unfortunately she did not find either of these enjoyable. "I am more of a five star, Ritz Carlton, kind of girl. Sleeping on a rock and climbing rock after rock does not appeal to me," she said. She uses chat rooms only if there is nothing else to do.

The rapid growth in the Santa Clarita Valley and our school does concern me. **The school is way overcrowded.** It takes forever to get across because of the amount of people. Something must be done about the schools.

**ROOTS** Josh has lived in Stevenson Ranch one year but does not know what tract housing is. In his free time he bikes, skateboards, and surfs. He is connected to the internet but does not have his own home page and does not use chat rooms.

Yes, it does concern me, however, everyone needs a place to live, and go to school. It may affect me, but **I understand.**

**ROOTS** Lindsey has lived in the Valley her entire life. She uses chat rooms very rarely and only to stir up trouble and hostility. In her free time she likes to film short movies and spoofs with her friends. She has only camped in nice safe campgrounds, not the crazy wilderness.

Yes it concerns me. I don't like seeing all the hills torn up. And it's **not pretty** anymore. There are **too many people** in SCV and in the world.

**ROOTS** Jesse lives in tract housing (...all lined up in a row.) He admits to accidentally stepping on a blind girl's toes and almost proceeding to tell her to "watch where she was going," while he was crossing campus. He felt terrible but on our campus this is not uncommon.

As a senior, the rapid growth of the school obviously has very little effect on me, other than to perhaps offer some **mild amusement** at the thought of "**sardine students.**" I'm glad the valley is growing, though, it might provide us with something to do at night, for example—clubs, better pool halls, etc.

How did you feel about Proposition A, which would have given more money to the schools?

Does the internet bring us closer to each other or pull us apart? How does it effect you?

Should endangered species' habitats be destroyed in order to build more tract houses? Is it ever OK for any type of building?

I think that if Proposition A gives schools more money to spend, why not go for it. As long as the school puts it in the right spot.

On the internet, you can talk to people from all over the world. I am not saying that you shouldn't go outside anymore. I think that human contact is a lot more important, but I think it does contribute to bringing people together.

I don't think that anyone has the right to take an endangered species home. I feel that animals have rights too. Just because we can't hear them doesn't mean we can ignore them.

I think money should be given to build a new school or expand a school. The schools are running out of room.

I think the Internet is a way to communicate but it takes away from human interaction. You can't even hear a voice like with a telephone. People need to come together, not stay in their homes.

Endangered species' habitats should not be destroyed for more houses. There are other places to build besides marshes or forests.

I thought it should've passed. We need more money, especially for more bathrooms and prettier campus.

Internet is nice and convenient, but its too bad that everything is online now and human interaction is no longer required. Oh well.

NO!!! There are far too many tract houses being built. If a habitat must be destroyed for a building, then it should be some kind of nature center or science place or preservation house.

The more money the schools have, the more they can spend on me. Prop. A is OK!!

It depends on how responsibly you use it... if you let it control your life and warp your mind, you're in trouble.

Of course!! Down with nature!!

"X" marks the spot. Travis Ryan and Adam Staci cross rulers during class.

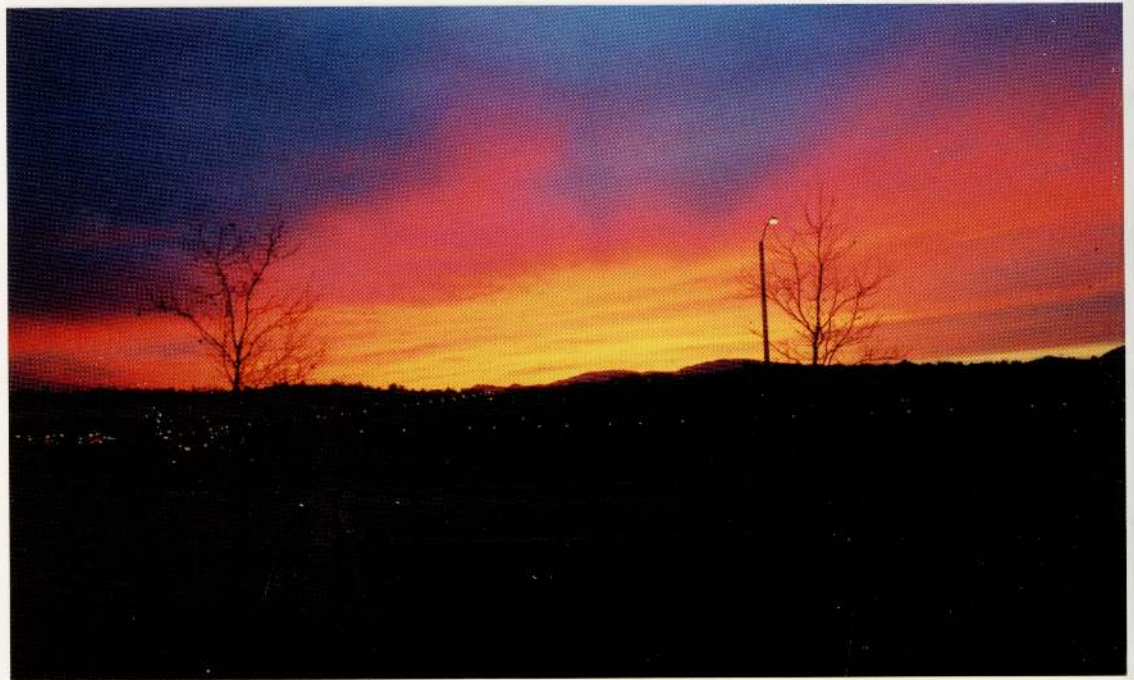

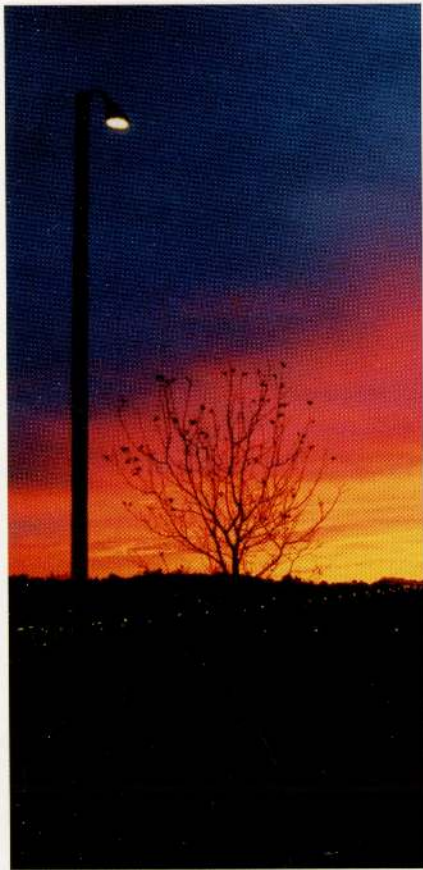

1. Locked out! Students peer into the school through metal bars in search of their friends. The gates around campus frustrate many students who feel they can be trusted to stay on campus. 2. I've been hanging around this spot on the grass. These students relax during lunch. 3. Quite a fashion statement. During a brunch time activity this girl dresses in a trash bag and uses whipped cream instead of lipstick. 4. Night Vision. The campus at dark emits a strange yellow glow as students move about in the quad. 5. He'll never grow up. Mr. Marcucilli dresses as Peter Pan for the Homecoming Rally. This year's theme was "When You Wish Upon A Star."

While  
You were  
Sleeping...

While most of us are sleeping, there are a few dedicated students who are already starting the day in their 0 period class. Starting school sooooo early has its drawbacks but it does have some beautiful advantages. Here is a glimpse at some of the magnificent sunrises and a few of the students who get to enjoy them every day.

*Aloha* VHS. The first dance of the school year is always an exciting scene and a “must go to” dance. The whole week before the Luau Dance was filled with a Hawaiian atmosphere. **1.** Omo Terry, volunteering to take part in the brunch activities, leans to his limits in the Limbo competition. **2.** Strutting his Hawaiian style, Garrett Markenson, smiles at the on-lookers. **3.** Tiffany Roofner and Elena Arambula, having a blast at the dance, stop to share the moment. **4.** Megan Nowak shakes her belly and dances to the groove on stage in her Hawaiian apparel. **5.** Jose Sanchez takes on the challenge of surfing at one of the many party activities. **6.** That’s a mighty fine hula hoop you got there! Jee-hoon Song shakes his hula to try to win the hula hoop competition. **7.** YMCA! Laine Ruzicka, Lindsay Hovestreydt, and Eric Burnam dance along with the d.j. in the night light. **8.** Ready? Set? Sumo Wrestle! Bobby Davis and opponent prepare themselves to get down and dirty. **9.** Erin Hall and Kira Bund take time off the dance floor to get a breather.

# overCROWDING!!!!

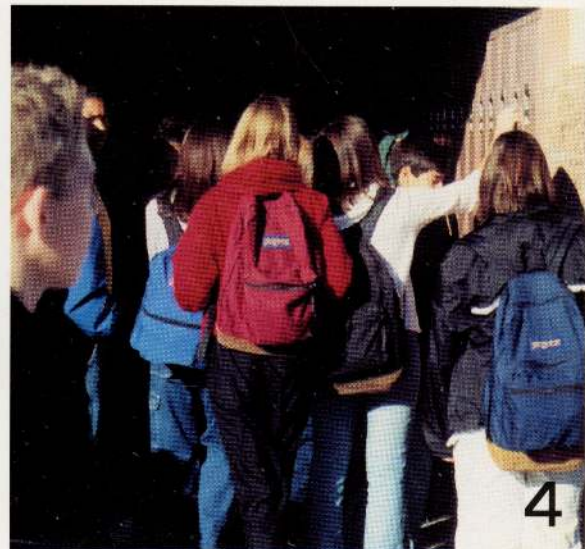

1. Got room? An anxious crowd of sophomores gather to attend their 3.5 GPA/perfect attendance assembly. 2. "Honey, I thought she was in section 3, row 5." "Ya, but it's too crowded here, I can't see anything!" 3. Whatever happened to the term "single-file line?" Isn't this a fire hazard? 4. "Cover us, we're goin in!" Three daring sophomores enter the dark corridors of the lockers. 5. Close encounters! You won't find a larger gathering at a Backstreet Boys concert. 6. Stampede!!! A herd of people rush out the gym door after a rally. 7. The more the merrier, some people don't mind the overcrowding of our school. 8. "Ugh... I hate crowds..." Kira Bund holds her breath before crossing the sea of people.

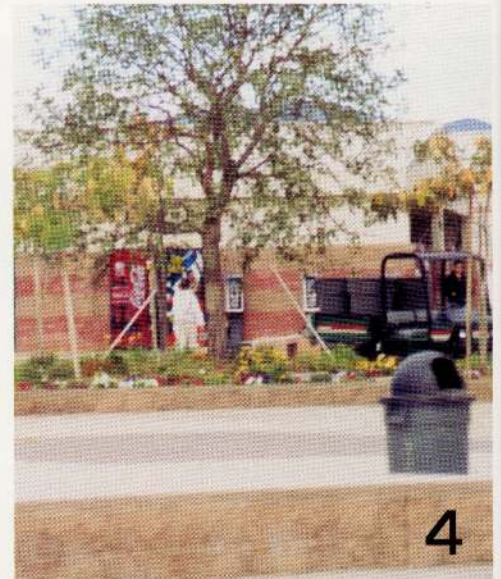

Our school is getting more crowded year by year. Can you guess the order in which these crowd pictures were taken?

Answer: B D A C

# The Birds The Bees, and the Trash

1. Mr. Holen is picking up trash to help keep our school clean. 2. Sitting around, Bryan Jones and Bobby Schley are relaxing during their open period. Many students enjoy hanging around with their friends during open periods. 3. During hot sunny days many students are thankful for these shade structures. This was a new edition to the school that many take advantage of. 4. Sean Williams was one that was loved by many. This tree was planted and dedicated to this wonderful person who died in a fire last year. 5. One of the biggest problems at our school is our trash. This is just an example of some of the trash collected after lunch. 6. Outside of the gates, beautiful flowers grow. 7. Our school may be lined with tiny trees like this, but they are still growing. 8. During lunch, the students stand around unaware of the trash below. 9. Filled with beautiful flowers giving beauty to our school is the Peace Garden.

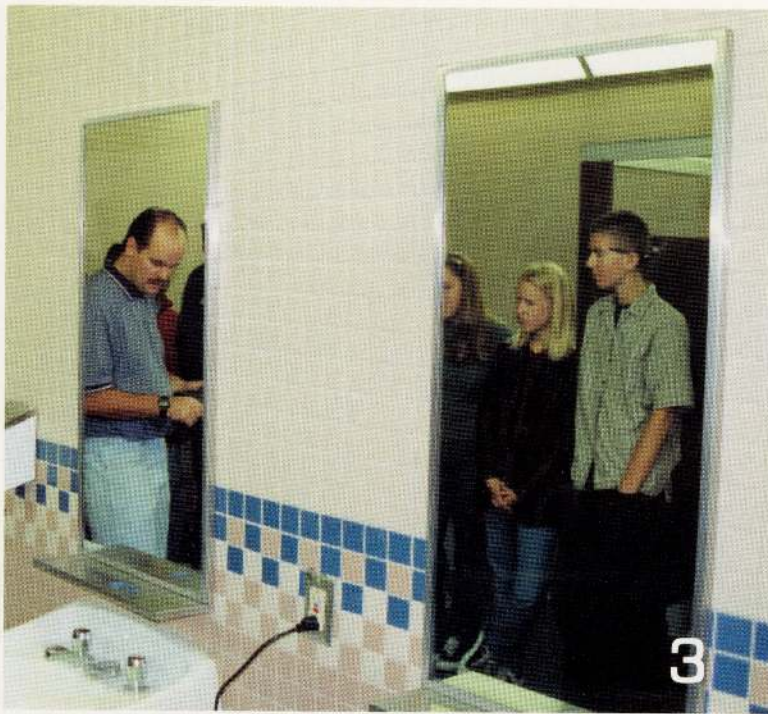

# The World *as We Know it*

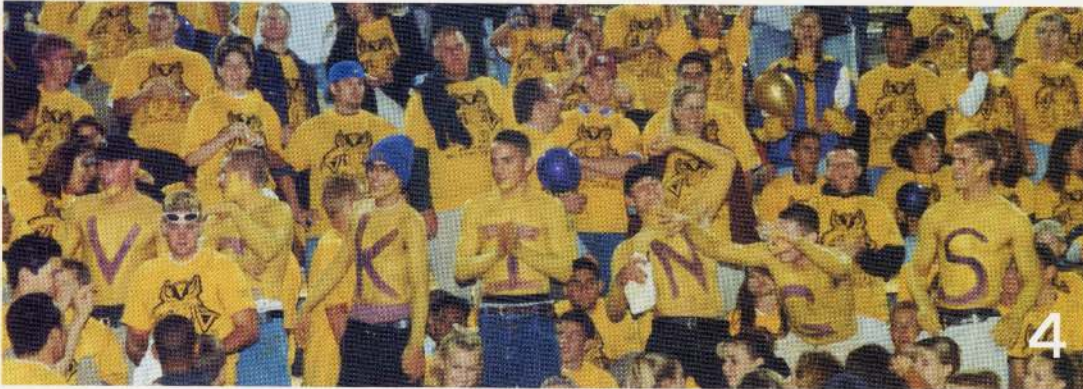

1. "Mmmmm, cat, the other white meat." You'd think that 45 minutes would be enough to get a meal in. John Pappa and friend seem to have a little trouble getting theirs down before the bell.
2. "Sir, just let go of the soda and you'll be able to get your arm out of the machine." Even in the cold of winter, Valencia Students down sodas like its the middle of July. Martin Brower refills the soda machine for the second time in a day.
3. And in Australia, the water swirls the other way around. Mr. Duncan demonstrates the waste management system in the teacher's lounge as Jen Grosheim and Adam Miller watch on.

Monty routine at the Valencia/Hart Game. Even that wasn't enough to save the game. Another one bites the dust. 5. How about that school spirit? Sometimes just waiting for the game is enough to deflate your balloons. 6. A prayer for the dying. Justin Sofley doing a Shakespearian reading in Mrs. Cresap's English class. 7. Getcher motor runnin'... Sometimes it seems the only way to get out of the traffic in the parking lot is to go through it. With the student body at 2700 and growing it can only get worse. 8. Where do you suppose they got that shopping cart? Aaron Dudley and friend deliver cold beverages to the Viking tennis team. The lack of shade on campus can make for some pretty hot afternoons.

# Wish Upon A Star

1. Be all that you can be...on the inflatable rock climb. William Everroad climbs up this "mountain" at the homecoming dance. Inflatable games were fun for those without skirts. 2. Homecoming proves to be a magical night for many people. Jeremiah Montana and Catie Chang were the big winners that night; something that they will always remember. 3. The Sophomore Homecoming Court was Tanya Manzanara, Colin Carey, Anna Haines, Matthew Coe, Melisa Ceja, and Ryan Zike. 4. Touchdown! The inflatable football game gave students a chance to compete against one of their friends. When one player reaches out the other player is pulled back. 5. Its fun to stay at the YMCA. Dancers at the Homecoming Dance groove to the tunes of the Village People. 6. Who can forget the big game? Kaelan Jakes and Marc Stockland tackle one of Burbank's players. 7. Where's the fire? The cheerleaders rode into the homecoming game on a local fire engine. 8. Keeping with the Disney theme, The Mickey Mouse Club performed at the Homecoming Rally. 9. "It's a small world after all." Jen McDaniels entertained the students at the rally. 10. The Freshman Float, Little Mermaid, won fourth place. 11. The Sophomore Float, Hercules, won third place. 12. The Junior Float, Peter Pan, won second place. 13. The Senior Float, Snow White, of course won first place.

# Weathering Heights

2

1. Toes to the nose. Even though the weather wasn't so great for the Luau, Jessica McConaughy takes the opportunity to practice her surfing skills. 2. Jeremy Pierce tyrannically beats off nature's rampage with a meager combination of metal and nylon. 3. Rain drops keep falling on my head. The students walked quickly to escape the fifth period rain that causes the dreaded frizz. 4. Come fly our friendly skies. Lindsey Newhall takes a moment to appreciate the beauty of Southern California's weather. 5. Surprise attack. No one

would have guessed that a sunny day could suddenly turn dark, but everyone knew who to blame. The weather man received a record number of threats. 6. Another one bites the dusk. 7. Oh my nose! What am I gonna tell my prom date? Although this guy looks nothing like Marcia Brady, he can still take advantage of the good weather.

7

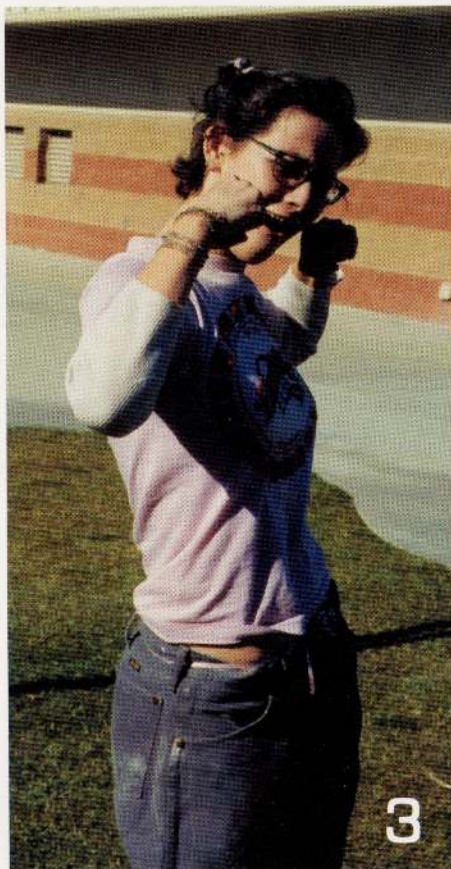

1. Jump up, jump up and get down! Nothing like the YMCA to get the V.H.S. crowd jumping. 2. Break it down. The dance team gets down with their bad selves front and center at the football games. 3. I'm going to pump <clap> you up. Shelby-Lynn gets pumped up for school where she's a part of A.S.B. and V.T.V. 4. Salute! Valencia cheerleaders lead students in our school alma mater at the close of every rally. 5. Yodel-a-hee-who. Maryanne Paletz graces the crowd with a soft country ditty at our Western themed rally, while the A.S.B. gals back her up with a bit of line dancing.

6. Yee-haw. Another class competition, this one involved "student-back riding." I guess there aren't too many horses in Valencia. 7. A Peace of Spirit. Senior Jordan Perkins-Louis shows his spirit in a more reserved way than some, with a simple peace sign. 8. The band goes marching 5 by 5, hurrah, hurrah. The pride of Valencia adds to the competitive atmosphere of the sports games with energetic fight songs. 9. Excuse me sir, but I do believe there is a hole in my cup. A volunteer freshmen lay willingly on the gym floor as a fellow student poured milk on his face. He has fallen victim to yet another class comp. 10. The Ferry Sing-Along Hour. A.S.B. advisor Frank Ferry takes an active part in the singing of our alma mater. Ferry's enthusiasm and school pride set an example for the rest of the student body.

11. Who am I? Where am I? Kris Klieber competes blind folded at a rally for the Junior Class.

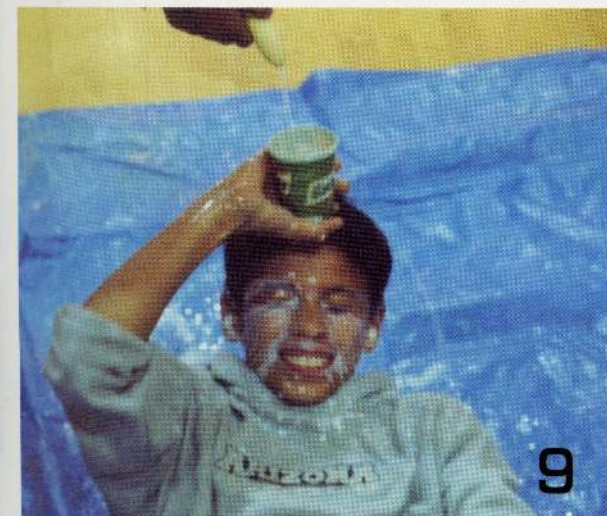

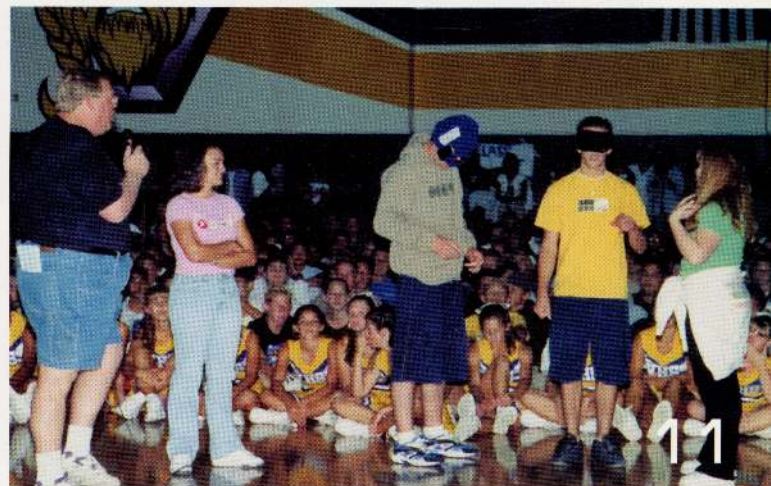

12. Little Mr. Hula. Garret Markensen struts his Hawaiian stuff for a themed brunch activity.

# WHEN THE SUN SETS

When the sun goes down, the fun begins for many students at Valencia. From hanging out with friends, going to parties, or seeing movies and concerts, there is a lot to do. Some even take their antics out of the Santa Clarita Valley and take them to Santa Monica and Hollywood. With all the possibilities, one thing is certain, where ever the night takes you, there you are.

1. Oh, the mall. The quintessential hangout of teenagers everywhere. What would high school be without it? It's a place of purchasing and lounging, especially after the sun sets. 2. Chillin' at your friend's house is a wonderful pastime, whether you're jammin' out, or hanging out and watching videos. Sara Petroski is making some mad tunes on her keyboard, while Crissi Wright rocks out on her drums. 3. Can you think of a better place to take your date at night than the movies?? Well, maybe you can, but it's still a good place to catch the latest flicks, and the Grand Palace has a lot of movies to provide. 4. Nothing to do on a Friday night? Get a good cup o' joe and hear some jammin' tunes here. Java & Jazz has become a place to sit and relax with one mighty good mug of mud. 5. Or you can go show some school spirit and watch a game. Heather Fix and Heather London put on their best face and root for the football team. Good fun and good times.

# Mature . . .

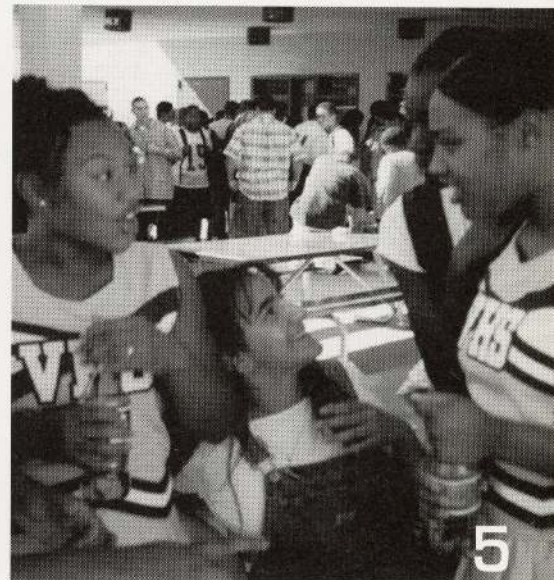

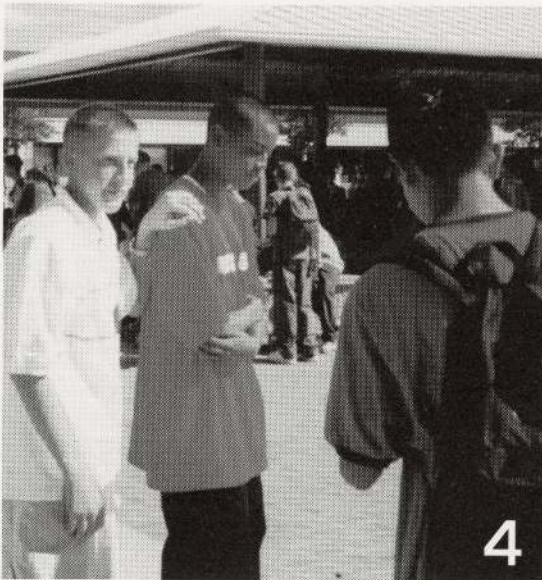

Adjusting to a new school environment and all those projects teachers assign freshmen year can be stressful. Jenda Cipperley manages to give a great presentation on her own life.

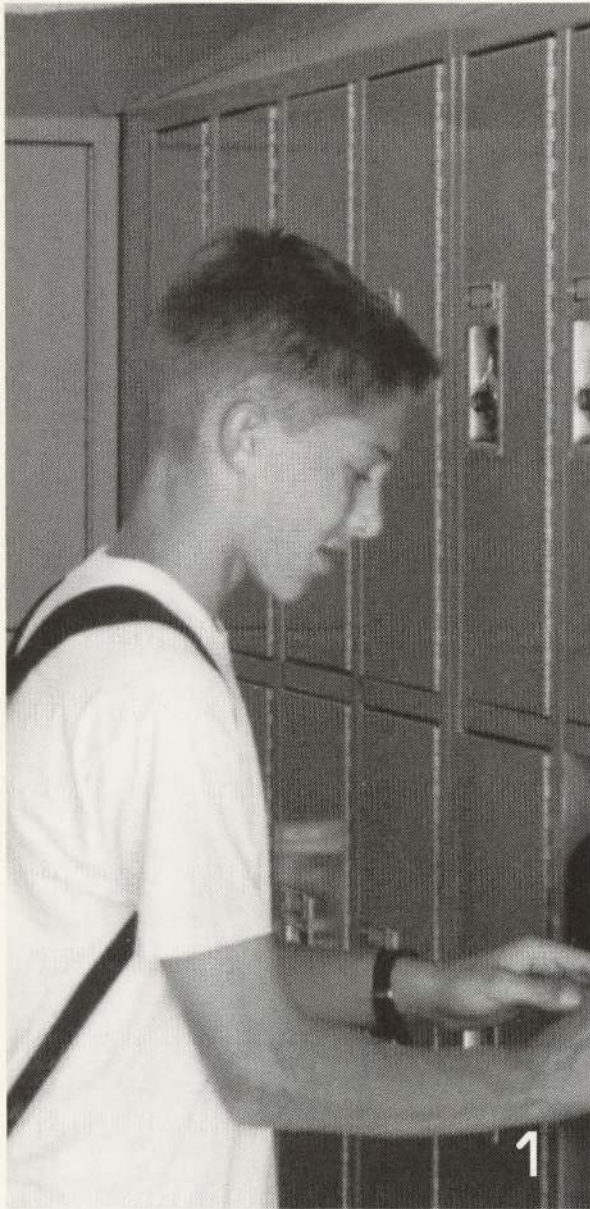

1. Ashley Baker and Ashley Castillo enjoy English Class with Mrs. Itaya. They are always well entertained! 2. Chad Lincoln, who is on the Freshmen football team is rambling on to his friend about how great the team is going to play in the up-coming game. 3. With lunchtime laughs Jillian Shirts and Melanie Ervin enjoy their lunch and the newest topic of dicussion. 4. Brad Vanek, Curtis Dunwoody, and Jan Diaz meet up at lunch to talk about the days' events. 5. Lunchtime means gossip, right? Satarrica Hightower, Nikki Harirchi, Diva Kakonde, and Giselle Pre'Jean get up to date on the latest news on campus.

He's number twenty-five on the football field and a member of the boys golf team. Tyler Castan came to Valencia High from La Mesa Jr. High. What does he think of the transition? He has enjoyed his first year of High School. He likes meeting new people and making new friends. Tyler thinks the rallies are a great spirit booster for football games and wishes there were more. As a member of the freshman football team, he goes to the Varsity football games to support the Varsity team. He also thinks ASB and the cheerleaders do a good job of keeping up the spirit.

Tyler has lived in the Santa Clarita Valley for about six years now and thinks it's a good place to live. Coming to Valencia made it all the better for him. Though this is just the beginning of a chapter in his life, Tyler just wants to do the best he can and excel in sports.

When walking through campus, it's hard not to notice Ashley Carter, but do people know her story? Ashley has lived in Valencia all her life, but was born in Tarzana, California. In Valencia she feels safe because of the people that live here.

She entered Valencia High School last August with hundreds of other freshman. So far she has liked meeting so many new people and having more things to do. She likes the rallies because of all the different teams that perform and all the spirit the school has. Ashley also enjoys football games because ASB makes it fun, plus it's a time to socialize. Winning the Freshman Homecoming Princess title also adds to the fun of high school. This year she also made the freshman volleyball team and hopes to continue the sport. She enjoys how aggressive and competitive it can get. Besides volleyball, Ashley also has played softball for eight years and has been a dancer for three years. She has three more years to go before she graduates, so she just hopes to do the best she can academically and in the sport's world.

# Out And About

1. Lisa Bono is getting ready to see a show at the Imax. The Imax, a new theatre in our community, is one of the most popular movie theatres in the Santa Clarita Valley because of the "Auditorium" seating and the high quality surround sound. 2. Keith Chambers is hanging at the mall playing in the arcade. This is one of many ways students wind down from the stress of everyday school.

Smiling brightly, Tanya Manzanares and Matthew Coe take the spotlight as Sophomore Prince and Princess of the Homecoming Court. For every grade there was a Prince and Princess, except the Senior class who had a King and a Queen.

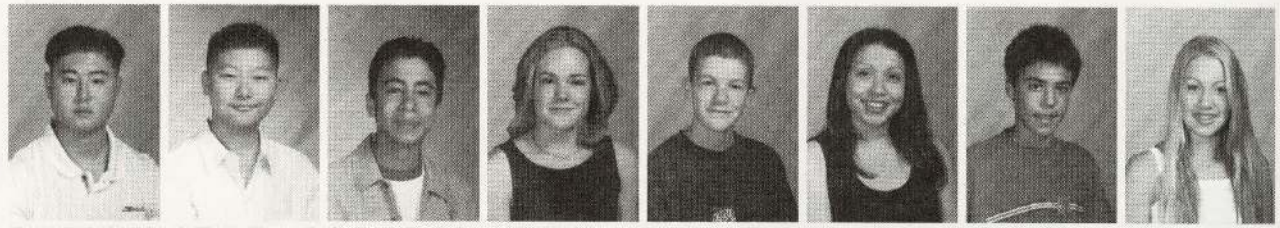

1. 1, 2, 3, Hike! Sean Oakley is about to take a plunge face first into a homecoming football cake to show his spirit for the homecoming game. Many brunch activities were done during homecoming week to promote spirit. 2. Aloha! John Capiello is doing the hula dance in preparation for the luau. The Luau was the first dance of the year. 3. Shout it all out! Olivia Taylor is showing her school spirit by cheering at the homecoming rally. Many students enjoy going to the rally because of the fun activities ASB puts on. 4. Stop in the name of love! During the Choir Pop Concert, sophomore Kamili Mitchell, senior Varuni Panditha, and sophomore Navia Guyton-White show their singing talents. 5. # The Day the Music Died

What do you think?

1. Colin Carey says "We Need entertainment. Some special days for people who have to stay on campus would be nice for a change." 2. Staci Goldstein believes "Mr. Ferry was very irrational about it. If you don't want the mosh pits, then don't just take away the bands, not everyone moshes." 3. No Music??? Valencia was the only school that let bands come on campus and play at lunch. When the first band of the year played in the quad, kids got rowdy and Mr. Ferry said no more bands, since some students couldn't behave properly and were starting fights. There aren't going to be anymore bands playing at lunch. 4. Leanne Williams feels a better solution to the behavior problems would be to "Let the bands play and punish the ones who cause the problems." 5. Bryan Jones thinks "It is very unfair. There are a lot of other local bands that didn't get a chance to play here."

# Fields of Glory

-Grass At VHS-

1. Hey guys! Let's go hang out on the big dirt, I mean, grass area! Over the years the school seems to have had some minor fertilizing problems. 2. The "mountains" of VHS. Not only did these students find grass to sit on, they found shade at the same time! What a rare opportunity! 3. I want to get away... these sophomores get away from the hustle and bustle of the quad. 4. And... Action! These Video Production students film a project on a patch of grass they managed to find. Watch out! They could start sinking into mud at any second! 5. Remember rolling down the hills as a little kid? These students may as well give it a try.

## WOULD YOU RATHER HAVE GRASS OR MORE CLASSROOMS?

1. Hangin' around. The 600 and 900 buildings often provide a place to hang out during brunch and lunch. 2. Between classes, students hang out at the ramps discussing tests and quizzes, making the most of the time they have between classes before taking off at the sprint bell. 3. What? No way! Believe it or not the 800 buildings are portables too! They can be removed whenever necessary. Yet at the rate the school's population is growing we'll be needing them for years to come. 4. Ahh... beautiful brown portables, and more construction right behind it. Because, you know, *everyone* wants a view of our beautiful school from their house. 5. Got air? The graceful motors that make classroom temperatures 20-30 degrees below normal.

# WHAT DO WE SURF?

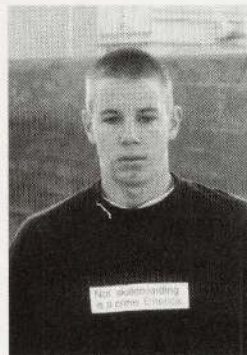

## Surf the Web? -or- Surf the Waves?

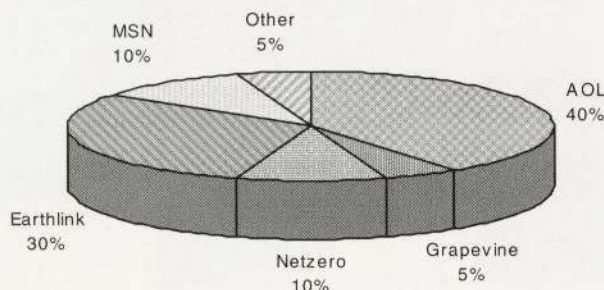

Ever since the Internet has been around, I've used it to bid on auction items that I enjoy. I have also used the Internet to gather information for my research reports and my own business. The Internet is very useful because I can communicate with people all around the world, I can speak to a friend in Florida just by clicking the "send" button. I believe the Internet is useful for just about everything in our daily lives  
Bobby Davis

When I'm in the ocean I feel that I'm in a different world. Surfing allows me to experience this world in a way that is unique to me and to other surfers. When I am surfing, nothing but the next wave is on my mind; I lose track of time and everything else surrounding me; It's the greatest experience that I know.

# Pick Up Your Trash!

1. Hmm... now nice, little pretty flowers, and a Blimpie wrapper depriving them of light. Some people just don't care that littering hurts our environment, just look at this! 2. See how clean our campus can be if we all just pick up our trash? Coach Holen sets a great example for us everyday after lunch by picking up and recycling our soda bottles. 3. About 90% of the stuff we throw into the trash can is recyclable. If we just learned to recycle the things we throw away, such as glass and plastic bottles and paper, we would be able to save our planet's environment from the pollution caused from making more of these materials. 4. Someone help! These lonely pieces of recyclable trash need to be with their friends in the recycle bin, so help them!

The trash problem is scary, I yell/cry when I see someone littering.

- Troy Alexander

I think it's rediculous that we can't even pick up our trash, because if we can't do that, what *can* we do?

- Bethany Mattson

I help Mr. Holen pick up soda bottles and cans before school starts.

- Jon Dapa

Don't be a litter bug!!! How hard is it to put your trash in a skinkin' trash can???

- Jennifer Mastopietro

Lets have students pick up trash for detention.

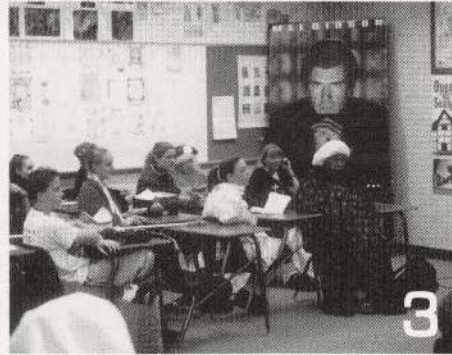

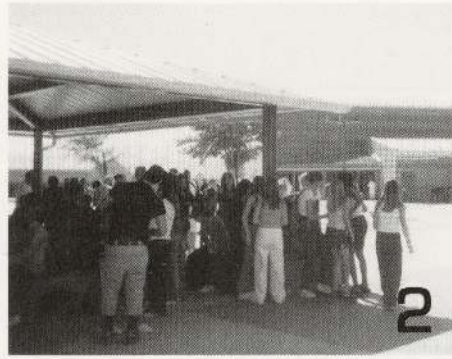

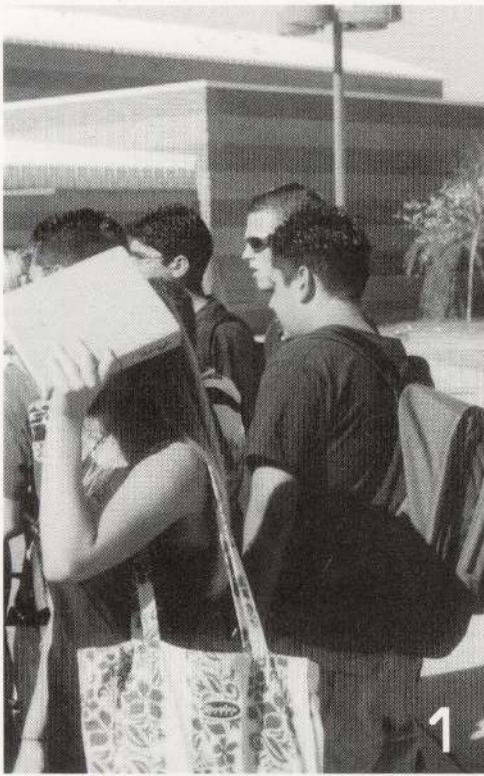

- Brian Shinkle

Trash is gross! I pick up my friend's trash if they don't throw it away.

- Heidi Hagebeck

In Japan, the students have to clean their school, if we did that, people would think twice about littering.

- Donovan Smith

3. No need for a shade structure.

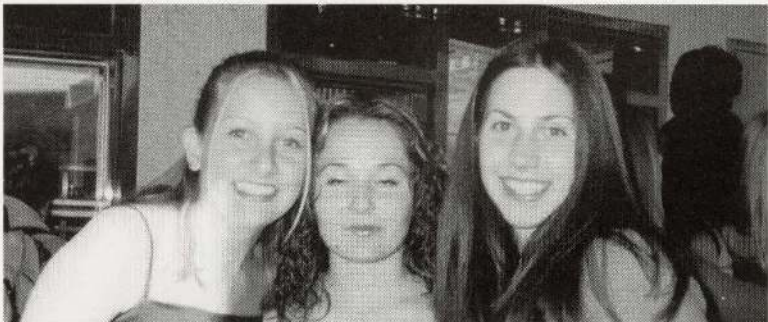

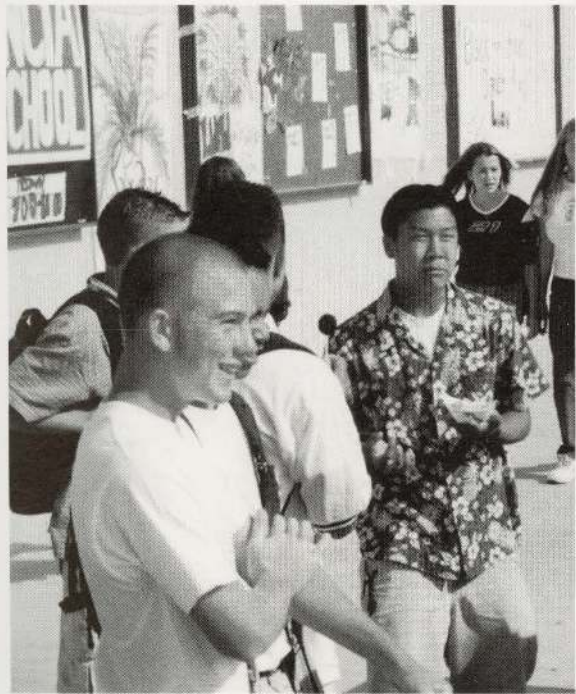

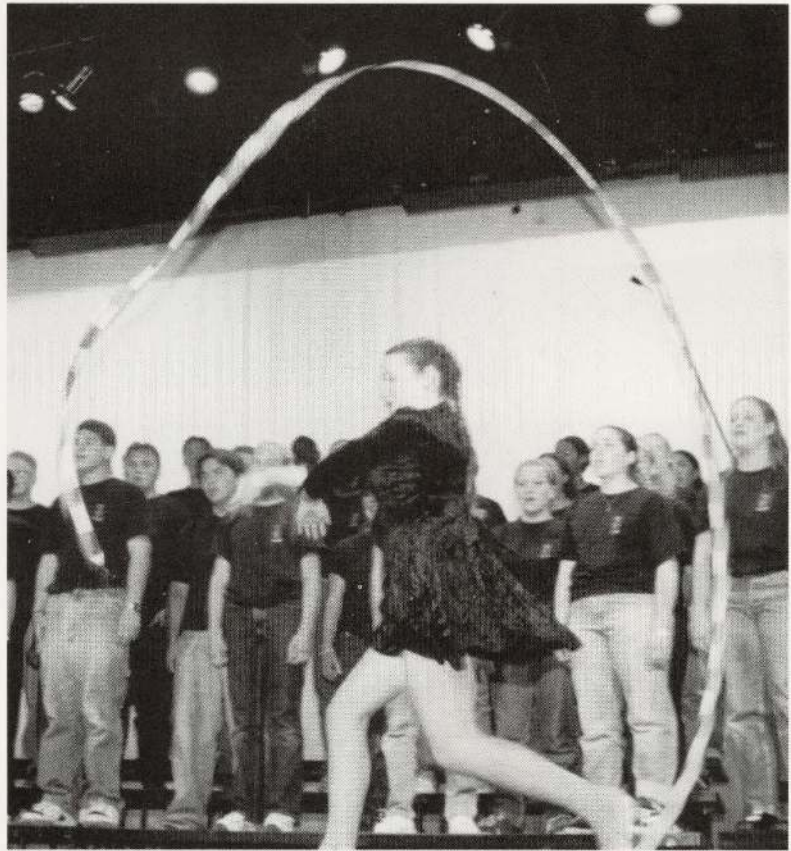

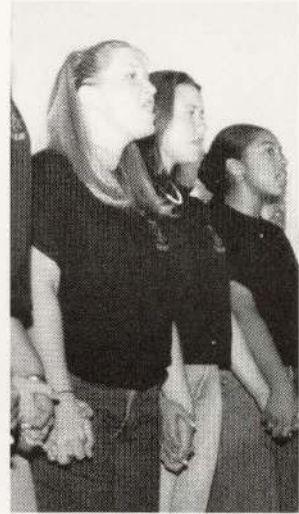

## Morgan Makes His Mark

To the untrained eye Morgan Ryans would seem like just another face in the crowd. But to those who know him best he's a motivated and talented artist with a bright future ahead of him. Ryans moved here mid-year from Newark, New Jersey and says of life here in Santa Clarita, "It's definitely a different lifestyle, but I like it." Ryans move was probably made easier by his love of art. "It wasn't as hard as I thought it'd be, because even when I felt alone I always had my sketch pad."

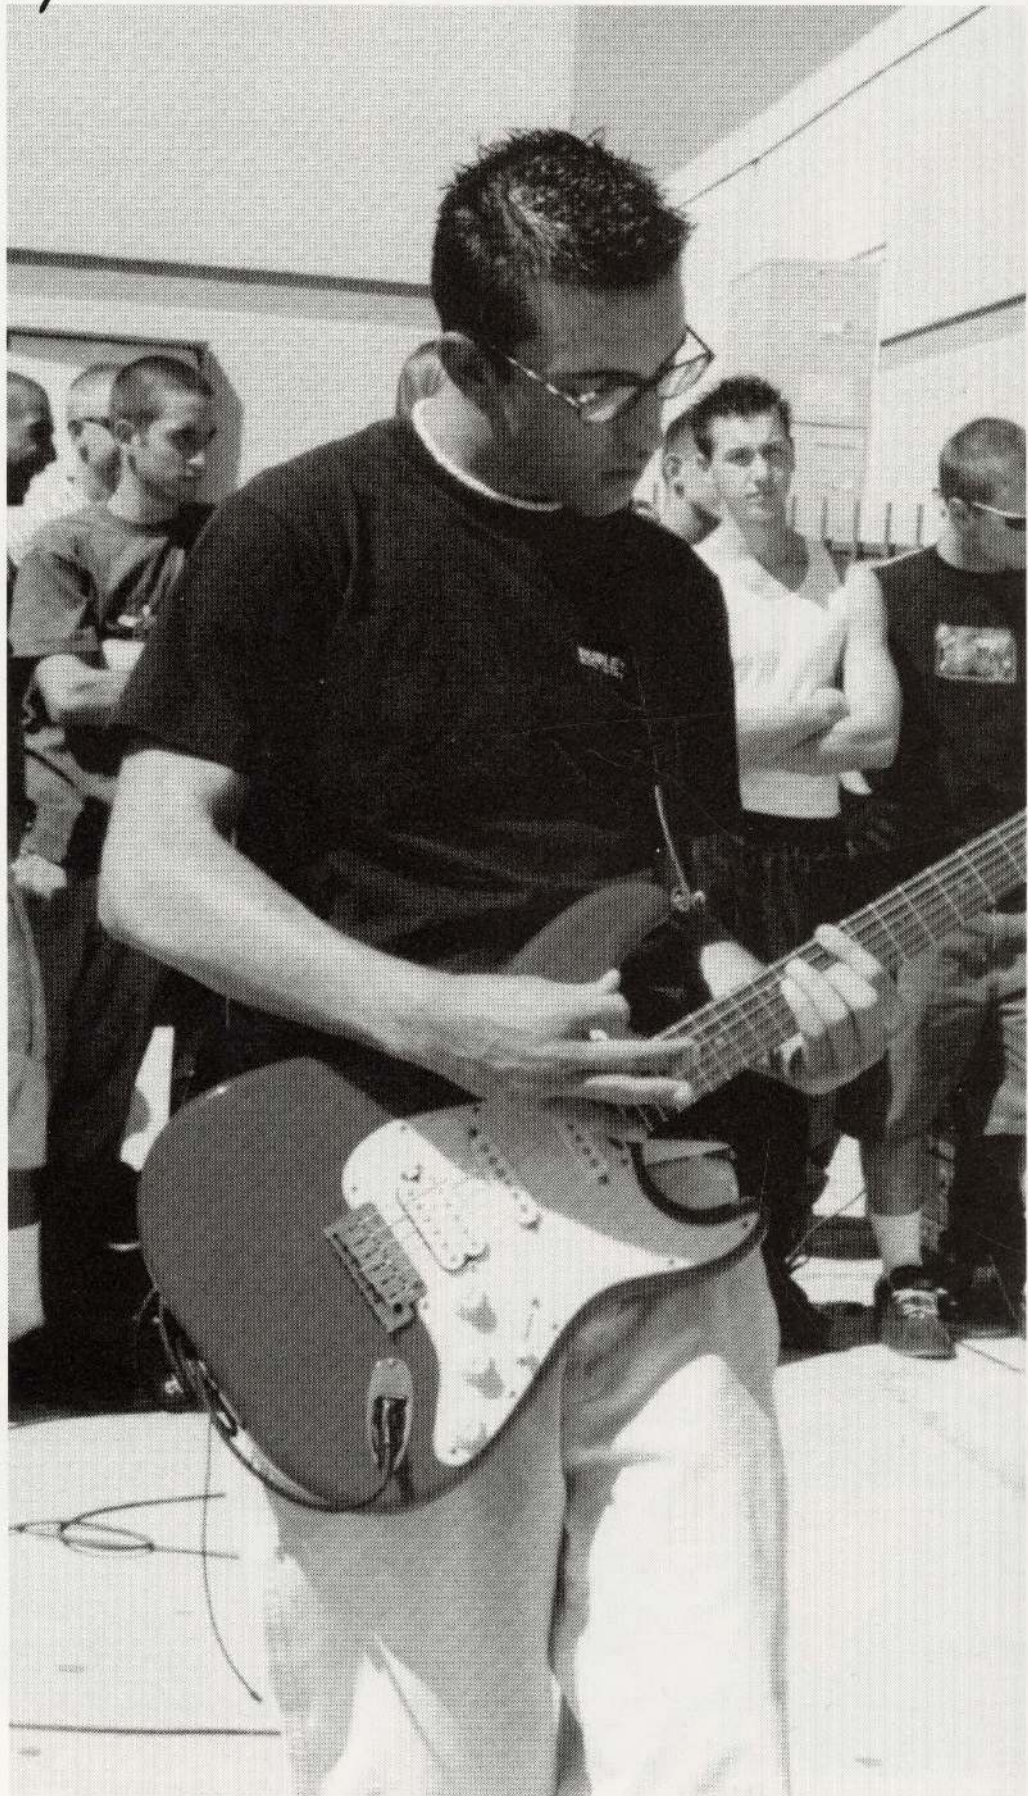

Ryans was pretty excited when he found out that CalArts was just a hop, skip, and a jump away. He hopes to attend CalArts and major in art, even though he has never taken an art course. "I just draw what I feel, I don't want anyone telling me what the right way is." When not enveloped in his drawings, Ryans finds time to hang out on Melrose with his friends. His favorite shop? Ardvarks. He says that the clothes there let him express himself much like his art does. "I find the most unique outfits there. I guess I dress differently because that's how I'm comfortable. It's just who I am."

Another way that Ryans finds freedom is through the music he listens to, notably jazz. "I listen to it all, but jazz especially. I can't explain it, it's just a feeling I get when I hear it. I want to get up and jump around." Morgan's motivation and love of art will keep him from being just another face in the crowd, and raise him to his ultimate goal of being a successful artist.

The Varsity Cheerleaders are just one of the highlights to look forward to at the rallies. 2. "And the winner is..." Sumre Glass, Caile Noble, Melisa Gallo, and Timothy Trevino were four of the six people on the Junior Homecoming court. Alana Morsehead and Timothy Trevino were the winners that night. 3. "Any man of mine..." Marianne Paletz sings at the rally for the school. Singing is one of her many hobbies. 4. "Smile girls." Beth Shalom, Gianine Cortez, Heather McGreevey, Heather May, Brianna Koury, Jessica Shurzinske, Melisa Gallo, and Kristan McDaniels hang out at brunch. These girls have been hanging out with each other since they started High School. 5. "The models are wearing....." Jonathan Rosene and Megan Bakshi model, while Sarah Paige announces them. **What changes have you noticed in the past few years?**

“There are alot of things to do now, but the curfew is too early.”  
- **Brian Metcalf**

“There are too many houses on our hills, less things to look at - besides houses.”  
- **Sheri Rogers**

**The WAY things were . . .**

Members of the Class of 2001 discuss what has changed in the SCV since their freshman year.

1. New Neighbors. The construction of more housing developments mean more people to meet, and, unfortunately, more crowds.

2. Benefits of all of the construction? The new Town Center Drive with great stores and restaurants including Johnny Rockets.

changes

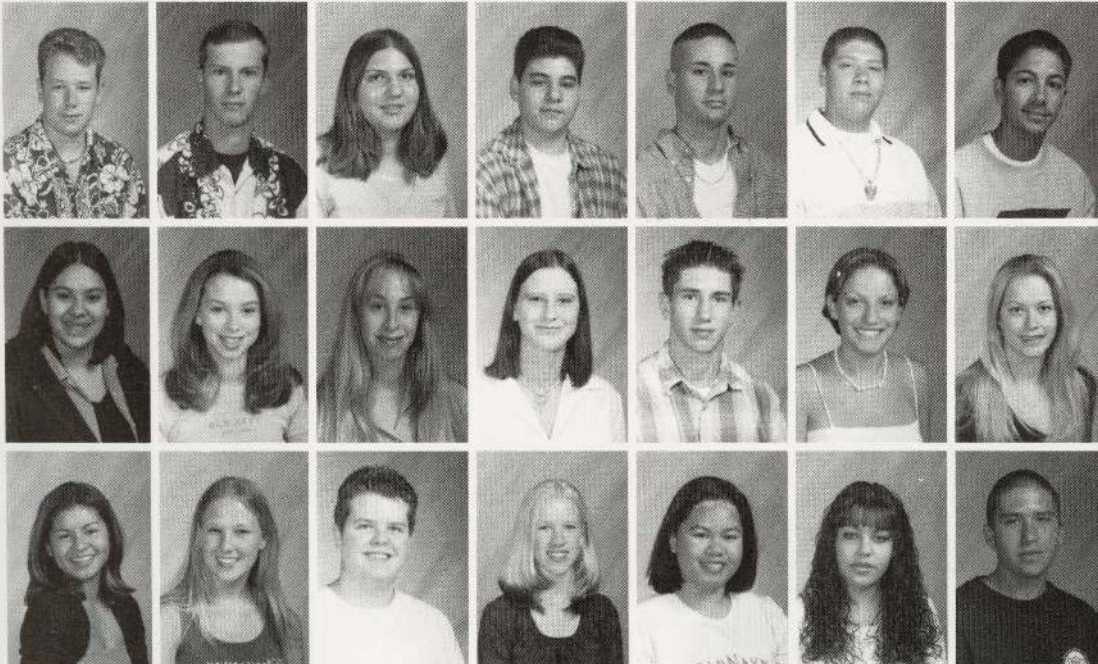

“SCV has grown - there are new shops and fun hangouts - which is good for shopping and going to the movies, but it is way too crowded now, and it is getting worse.”  
- **Ava Alamshah**

“There has been too much construction! You can't go anywhere without having to slow down for the construction zones.”  
- **David Vibe**

“There are bigger classes, shorter freshmen, and less available guys; but there are more interesting people to meet.”  
- **Rebecca Torres**

“Bad: There are too many houses being built, and wildlife is either diminishing or going where it shouldn't. Good: New sections of shops, etc. at the mall.”  
- **Amanda**

# FUTURAMA

In 10 years Giovanni Fernandez sees himself as the gentleman he's always been. Gio plans on attending UCLA where he will major in medicine and become a pediatrician. This occupation would be well suited for him because he loves children. Any final thoughts: Cuban Pride!!! Plug 4 Life!!!

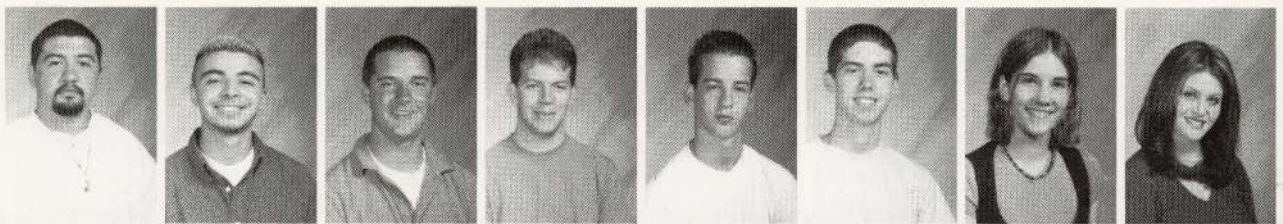

Kathleen is an aspiring actress. In 10 years she hopes to have won a couple of Grammy's and a few Oscars on the side. Kathleen finds acting fascinating because, playing different characters is an insight to how other people think. Don't be surprised when you see Kathleen Maressas's name in big bright lights.

In 10 years we'll be seeing Will Broadus in the NBA as a shooting guard for the Lakers. With his two kids and beautiful wife, Will plans to be the head of a very successful corporation as well. For his senior year, his "big Willie style" and jumps will come in handy to win the all league championship again.

# Stepping Stones towards Senior life

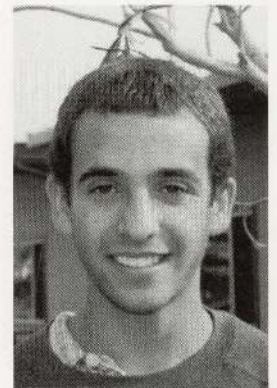

To Do List: Eat, sleep, play the drums. To some, that may sound like a chore, but **TONY SPIRO** loves his daily routine. "I went to Symphony in the 4th grade. The guide told me to pick an instrument, and I chose the drums." Six years later, he's in the Drumline, Jazz Band, and owns his own set of drums. With all this dedication, you would expect to see Spiro's band playing at the Whiskey A Go-Go. But Spiro prefers jamming with his friends than the commitment of a band. "It's too much work." Spiro's love for drums also shows through his taste in bands. "If it doesn't have a good drummer, I'm not that interested in them." When Spiro graduates, he wants to continue playing the drums. But first, he is going to attend Burklee, one of the best music schools available. After returning from Boston, we can only expect the best.

Would you take up the chance to fly to Washington, D.C. to visit the National Art Gallery? **JODY THOMPSON** did three years ago to look at some of her favorite Impressionist artists. While she enjoys painting, she also likes to write and read Beat Literature. "It gives me a different perspective of things. It's a good reference point." When Thompson needs a little inspiration, she turns to Rage Against the Machine. "Zach De La Roch sings about some of

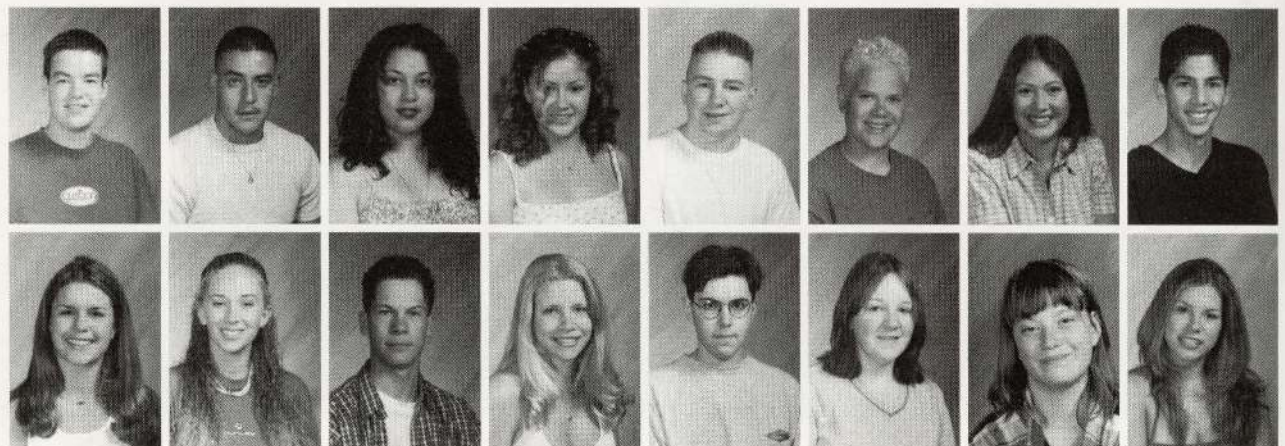

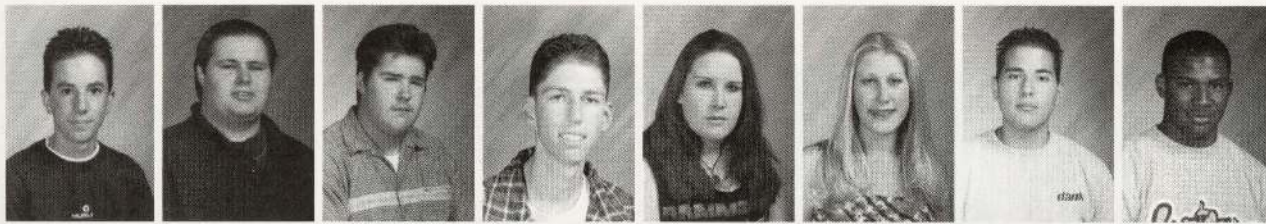

the problems today, I like how he sings about something real." Combining her two loves, she will sometimes get inspired to paint after reading Beat poetry, or vice versa. With all her love of literature, it's no wonder Thompson wants to major in English in college. Also, with inspiration from Rage Against the Machine and her dad, Thompson wants to be an investigative reporter and bust sweatshops when she gets older.

Drumline, piano, bowling, Jazz band, saxophone, trumpet, and Lotusphere. These aren't the hobbies of the Musician Club. These are what **RYAN YOUNG** lives for. Even though most know Young as the Drumline Captain, his parents have seen him develop into an experienced pianist. But his tune changed when "I went to the Open House for the freshmen, I saw the drummers and was inspired." Since then, he has mastered the drums, competed in competitions winning 1st and 2nd place, and is also involved in Jazz band, Drumline, and the Marching band. With all of these activities, no one would believe Young would have time for a life. But, every Saturday you can find Young at the bowling alley. You could also find him jamming with Lotusphere or writing his own music. Why does he do all this? "Because it's better than sitting at home and doing nothing."

# The Path to College

## It's a Rocky Road Ahead

1. So I need how many forms? Mrs. Van Amberg assists Melina Karamian with filling out her college applications. 2. Yes it does! It usually does pay off to go to college, although others say it's not for everybody. 3. How high was your score? Most students take the SAT I and SAT II prior to applying to colleges. Some colleges accept ACT test scores as well. 4. Big decisions. Aby Aleman uses the school's college/career center to find information on the college of her major.

It pays to go to college!

3

4

33% of all seniors have not taken the SAT. 27% have taken the SAT once. 30% of seniors have taken the SAT twice. Only 10% of seniors have taken the SAT 3 or more times.

22% of VHS seniors are not applying to major colleges or universities. 43% of seniors plan on applying to 1-3 colleges/universities. 35% of VHS seniors plan on applying to 4 or more colleges/universities. Then again, a lot of us don't care about applications or SAT's because we're going to COC anyway!

# Mark Morales

Have you ever met one of those guys that never fails to look his best everyday? A guy that can manage to make a statement and bring something new and fashionable into the crowd? Mark Morales is one of those guys. He does this because of his artistic talents. He has developed a

## Anna Yesilvesky

Anna is a hard working dedicated student who strives for perfection. However, Anna is more than an overachiever, she is a warm and caring person who wants to change the world and probably will. Anna not only has a 4.6 GPA, she also plays a crucial role in the debate team as well as Mock Trial. Anna began to change the world by volunteering at the American Cancer Society Resale Shop and interened at the Los Angeles Music Network. There are about a million things that Anna would like to do, if only she had the time. She enjoys creative writing, reading, and wants to learn how to play the guitar. "I wish there were 48 hours in a day, so I could do much more."

## AN OVERACHIEVER IS DEFINED

An overachiever can maintain the highest Lions Club Speakers Contest, win a trophy win a 5<sup>th</sup> grade spelling bee. Catie Chang, Langenbacher are overachieving seniors, set them apart from the other students at are always striving for perfection they do studying.

## Adam Langenbacher

Adam is interested in the fields of math and science. He is just fascinated by ecosystems and learning about living organisms. Adam expects a lot of himself, so doing his best comes naturally. If there is anything that Adam has learned in

high school it's that getting a 4.5 GPA is not all that matters. Adam believes that "life is an adventure in disguise. If you truly want to be well equipped for college, make sure you pursue understanding and the good grades are just an added bonus."

## Brandon Jonas

Working hard comes second nature to Brandon. "I feel I would be losing out if I didn't take advantage of as many opportunities as I can." Brandon is always up for improving himself. In fact that's why he joined the debate team, to improve his public speaking skills. As far as having fun, Brandon enjoys the simple things like watching T.V. and hanging out with his friends. "Four years go by in the blink of an eye, so you should try to do all you can." Throughout his four years, Brandon has taken challenging courses to keep him interested in his classes.

## Catie Chang

Most likely to be valedictorian, Catie scored a 1600 on the SAT's and has the highest GPA in the senior class. Don't be surprised when Catie wins her first Nobel Prize sometime in the near future. Catie is not only an academic, she also has a musical side. Catie has

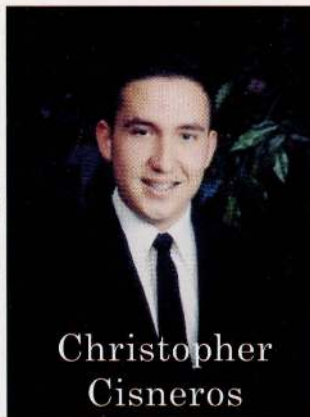

been in Jazz band since her freshman year and she plays the flute, piccolo piano and the oboe. Catie also has a love for physics and philosophy, which might be her major in college. "I think that 'physics and philosophy' would be an ideal major because, it combines the areas I really want to study."

1. Let There Be S.D.S! Jesse Fletcher plays lead guitar for the local heavy metal band SDS. Seen here jamming at Crystal Sound, Jesse and SDS have played numerous places such as The Whiskey, The Coconut Teaser, The Cobalt Cafe, and even our very own Valencia outdoor stage. 2. In The Hood. Seniors Andy Houde, Nick Alvarado, and Jordon Perkins-Lewis get together with VHS alumnus Ken Neff to play death metal in their band Hood. One of their best known songs? Fork. 3. A.S.B. gets Fed Up. Garrett Markenson's lead vocals and Robert Barnes drumming in the band Fed Up during lunch got their fellow students a little too *fired* up. After their performance, and the moshing that took place during it, A.S.B. decided there would be no more bands playing at lunch. 4. Hood In Action. With Nick on guitar, Jordon on drums, and Andy fronting the band with vocals, Hood really gets their audience going at the Whiskey A-Go-Go. Hood's jumping beat, unique costumes, and awesome stage show make Hood the great band they are.

# GETTING AROUND

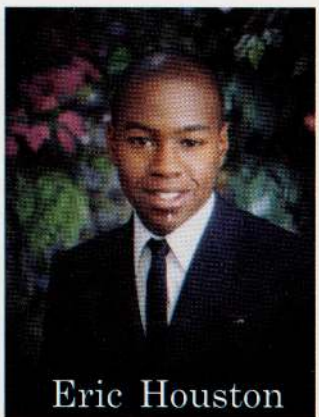

**1** Green Mania! Crystal Collatos and Justin Workman show off their sporty cars. Their cars are two of the most distinguished at school. **2** "Vroom, Vroom." Lacey O' Connel and Joshua Shiertz proudly display their cars. Life without a car would be next to impossible. **3** Hot Stuff! Brienne Sullivan is eager to have her jeep in the spotlight. Her car was chosen as the best in her class. **4** "Watch Out!" Jen Oswald's and Ethan Richardson's reckless driving skills leads them to a small accident. Both are known for their crazy driving. **5** "You wanna drive my car?" Munir Suleiman stands next to his black BMW. His car was also chosen as the best in his class.

1 Leaving for lunch can get pretty hectic with everyone making a mad dash out all at once. So many people try to find people to go with and places to go, while the campus supervisors just sit back and watch.

2 There's a variety of restaurants just around the corner for those who choose to walk instead of drive. From Chinese food to Italian, and even fast food, there's a cornucopia of eats just waiting to be had.

3 Ah...hotdogs... In the industrial center there are quite a few hotdog stands from which to partake of beefy franks.

4 "If it doesn't get all over the place, it doesn't belong in your face." Fast food, good and close, at Carl's Jr.

5 Lunch is long, but not too long, because you have to get back to class. But don't go too fast, you might get a cramp, or worse yet, a speeding ticket.

1 It must be a Seattle thing. You can always count on Eddie Nostrand to look good whether it's A&F or Gap. If you want to know what's hot, just find Eddie. 2 Nice outfit, Willyum. Chris Cornell and Willyum Gould are cool and casual in their almost matching outfits. Aw, how cute. 3 We like guys who wear Abercrombie and Fitch. . . Ryan Brown is a walking advertisement for the popular clothing company. He struts his stuff in Abercrombie attire everyday. 4 "What am I going to wear tomorrow?" Nicole Noriega is comfortable in her corduroy overalls. Girls know we all have overalls because they're so comfy for those lazy days. 5 Here I stand. Tim Suttle proves that guys can even look good in jeans and a T-shirt.

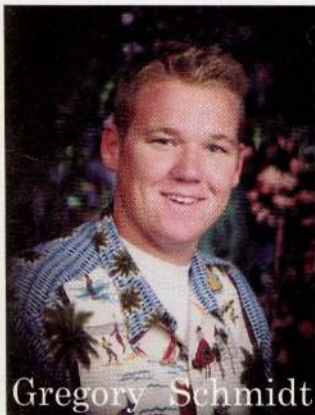

1. Jay's doing his Hawaiian thing. Many students dressed up Hawaiian-style for the Back-to-School dance. Others participated in brunch and lunch activities, like the limbo and the pie-eating contests.

2. Jen Machin and Crystal Rockwell look through a football program in search of some of their friends on the team. They made their shirts themselves to wear to football games. 3. Teresa Gilmore, Lindsay Marsalis, and Nina Galvan are at the Homecoming football game. Lindsay is proudly wearing her ASB shirt to let everyone know where *she's* from. 4.

Katie Burbank and Junior Valerie Pina display their spirit shirts at the football game. 5. V-H-S! Crystal Collatos and Jennifer McDaniels cheer the Vikings on to victory as they find their friends in the crowd. 6. Speaking of spirit, what's any rally without Vic the Viking to get us going?

1. Jennifer Sickles volunteered at Henry Mayo Hospital in the women's unit for three years. She worked at the desks, picked up phones, cleaned what needed cleaning, stocked shelves, held babies and did any other job that needed to be done. She plans to continue helping there until she leaves for college. 2. Jennifer McDaniels and Tiffany Roohani volunteer at Passport Academy about three days a week after school. They do odd jobs for teachers and help tutor students. It is important to help at Passport Academy because it is a school of students who need help finishing junior high. 3. Breanna Bers did more than 200 hours of community service for the Junior Lakers Basketball League for children 5-14 years old. She assists in every aspect of the league from dealing with unhappy parents to participating in meetings. She spends so much time volunteering that people are absolutely shocked when she tells them she is just a volunteer.

# E d u c a t e . . .

Can you stomach it??? If an emergency arises in Mr. Pearce's Science Class, you get to take this lovely model of a stomach with you wherever you may need to go.

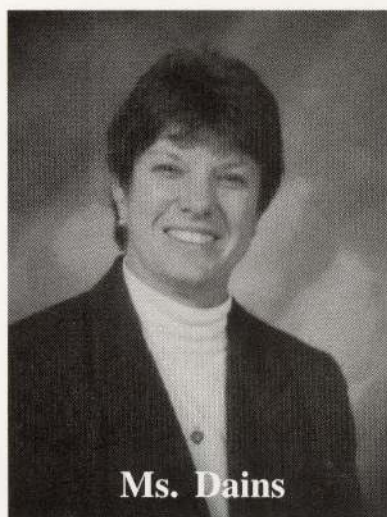

1. Campbell's makes everything, mmm, mmm better. This giant sized tomato soup can is used for Wednesdays, "I want you to know days." Students are allowed to put random anonymous thoughts into the can, then Mrs. Campbell reads all of them in front of the class. 2. Hey baby, nice leg. Most people have pink flamingos on their lawn, but Mr. Kilmer uses his for a hall pass. 3. Royal flush. You usually only come across toilet seats in bathrooms, but if you need to leave Ms. Strothe's class, you have to take one of these toilet seats. 4. Five minute video rentals. This video hall pass from Mrs. Hoover's class is filled with Viking Spirit. 5. Hey do you have a pass to be tanning during class time? If you're trying to ditch class, now is a perfect time, Ms. Bertram is taking a break, so it's your chance to escape.

Ms. Dains

Dr. Priesz

Ms. Yagmur

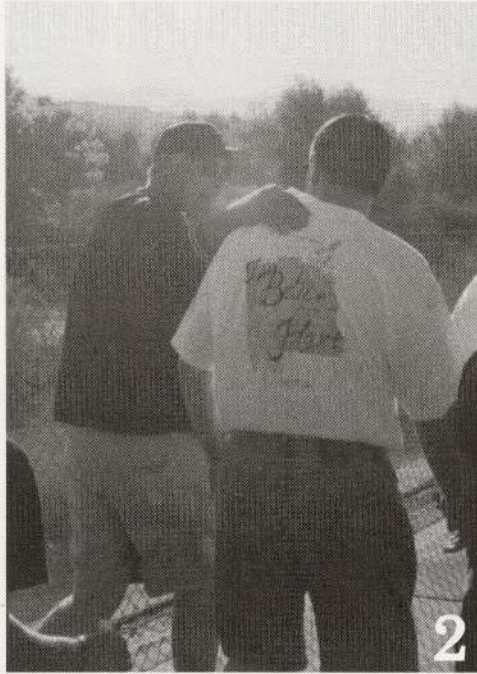

Mr. Luxmore

Mr. Vincent

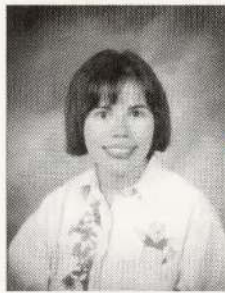

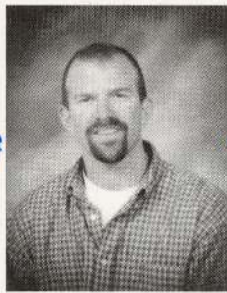

1. I would walk 500 miles and I would walk 500 more. Ms. Yagmur and Mr. Luxmore are doing their part for the American Heart Walk, fortunately they didn't have to walk that many miles. 2. Speeding by the competition. Dr. Priesz talks to the principal of Hart High School in the Heart Walk. Valencia took first place, beating all the schools including Hart. 3. They're going the distance. It's looking up for Mr. Vincent and Ms. Dains in the three legged race at the Staff Picnic. On Aug. 26, member of the staff got on buses and drove to Val Verde Park for a day of fun and games. 4. Taking care of business. Thousands of papers cross this desk everyday. The responsibility of being an administrator is a big one, but with a little bit of Cactus Cooler, Dr. Priesz copes really well with the pressure.

# Prepare . . .

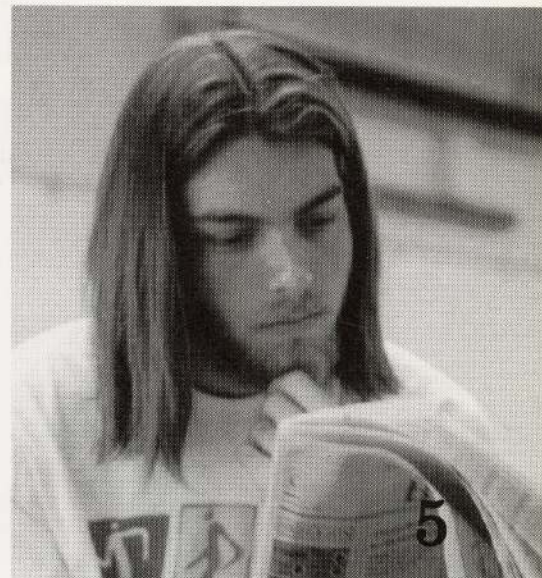

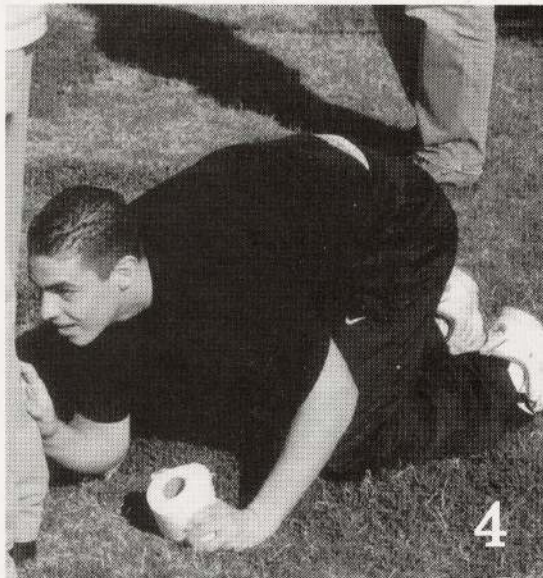

Dan Pina, Kenny Jones, Pat Olsen and Heather Vitolla dress up for a class skit in Mr. Hayes and Mrs. Leggett's English 10 team class demonstrating external conflicts.

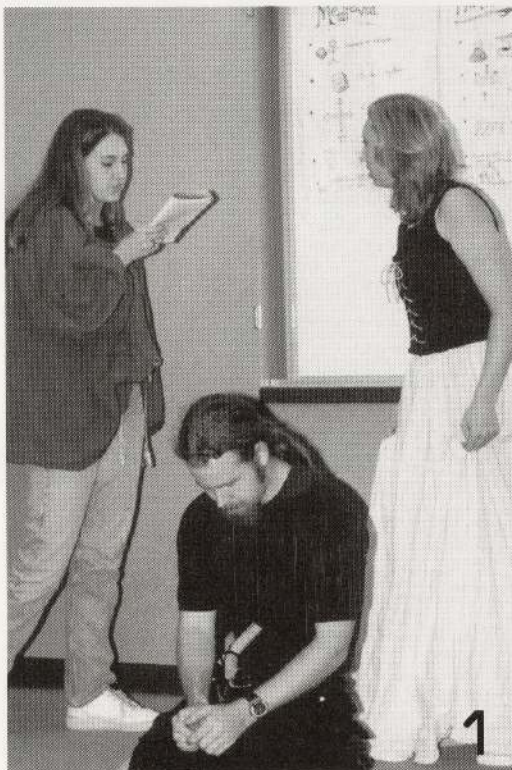

1. Justin Ferris is getting comfortable and sleepy in class; might as well just stay at home! 2. Robby Muilli and Inger Lawson join the fiesta in Spanish Class by wearing their sombreroes. 3. Shaun McIlheron and Greg Papazian cut a bone in half in Science Class. 4. "Don't let them get me, or I'll peg them with my toilet paper roll," says Giovanni Fernandez. 5. "What section should I read today in the newspaper?" wonders Brian Rose.

*for the future*

# WORDS, WORDS, WORDS

1. And the Oscar goes to... Jo Lynn Miller, Carly Sterling, and Jesse Fletcher perform a scene from Shakespeare's Othello. "Shakespeare class is really great because you get to act out parts of your favorite plays," Fletcher says. 2. Coming together with Chaucer. Ms. Cresap's Brit. Lit. Class puts on dramatic performances in order to better understand the material. (From left) Sophmores Ryan Brannagan, Heather Frisch, James Cordray, Keil Kudroff, and Steven Esselstein pose after their performance of Chaucer's Canterbury tales. 3. Only in America. The Kilmer-Swanson U.S. History/ American Lit. team line up outside their classroom in an Ellis Island simulation. Students underwent the same process that an immigrant in the late 1800's underwent in order to get into the U.S. 4. What's that in the sky? It's a bird, its a plane! No, it's Super Semi - Colon. Dallas Tidwell plays the semicolon as classmates Steven and Lindsey explain what its correct uses are. Do you know the proper use of a semicolon? 5. Come on in, the water's fine! Students in Mr. Kilmer's Adv. Comp. class show off their knowledge of the Scarlet Letter by recreating a scene from the book. Creativity was flowing as Christie Trippedda played the scarlet letter( left) and Anne Marie Hart portrayed the brook (on the floor.) 6. A Night to Remember. The Twelvth Night in fact. Students in Ms. Cresap's Shakespeare class watched as fellow classmates Erin Hall, Kristi Coppedge, Kira Bund, and the mysterious figure in the hood bring to life the play, "Twelfth Night." 7. Those crazy apostrophes! Ever wonder exactly when a comma is needed? Well, students Laurence Sohn (as the Apostrophes) and Kim Walsh as well as the rest of their Adv. Comp. Class know, thanks to their demonstration of it's function. 8. All's Fair in Love and War. The Kilmer-Swanson team is at it again, this time in trench warfare reenactment. Using cardboard boxes and caution tape as a trench and barbed wire, student Tony Spiro flings grenades (toilet paper) at their 'enemy' (the rest of the class.) 9. Are you lookin' at me? Mr. Kilmer gets serious during the earthquake drill. His students got the unique chance to participate first-hand in fun and educational games as well as prepare for one of life's natural disasters.

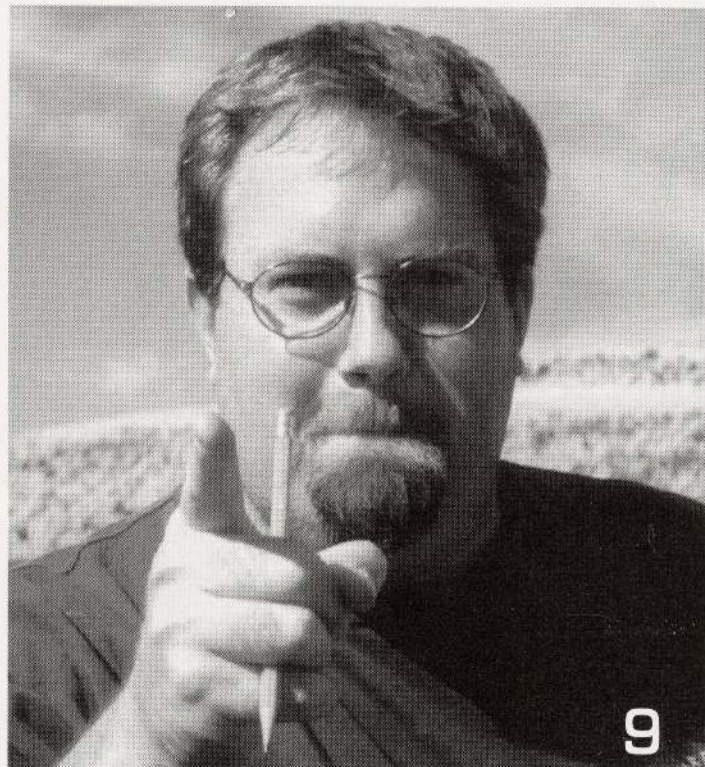

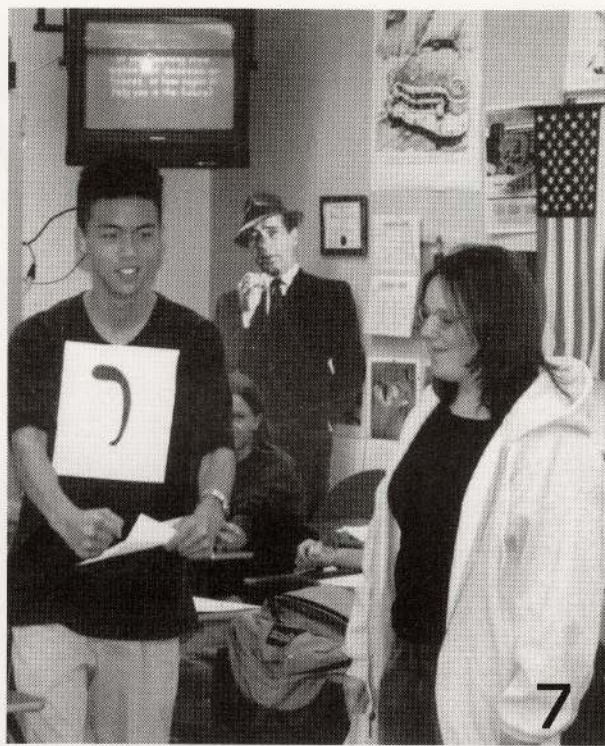

What animal best describes the English Department here, and why?

"The Wolf- because we travel in packs."  
-Kerry Strothe

"I can't think of just one- perhaps a litter of young German Shepards."  
- Louise Schultz

"Cats- because they are perfectionists."  
-Ms. Clune

"A duck-billed platypus, we're just a mixed up bunch of parts, that hardly anyone understands."  
-Mr. Rosenast

# From Addition to Differentiation

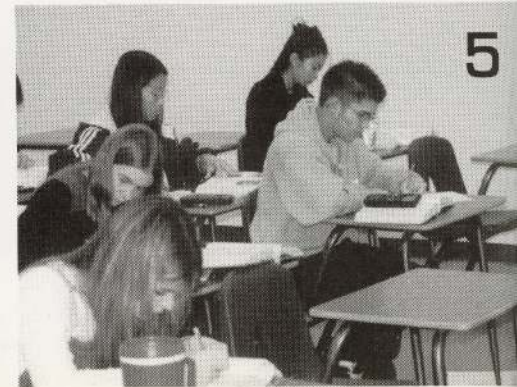

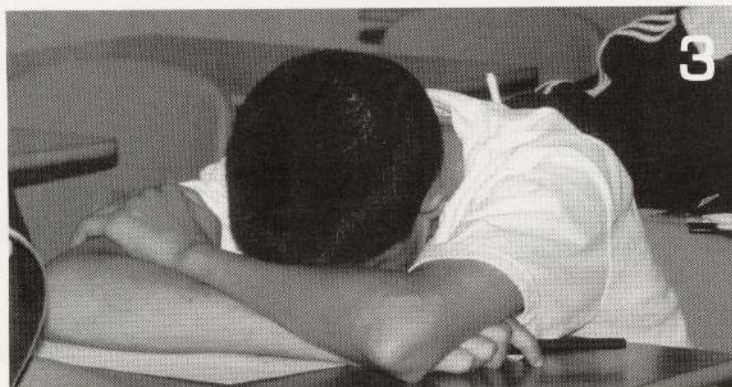

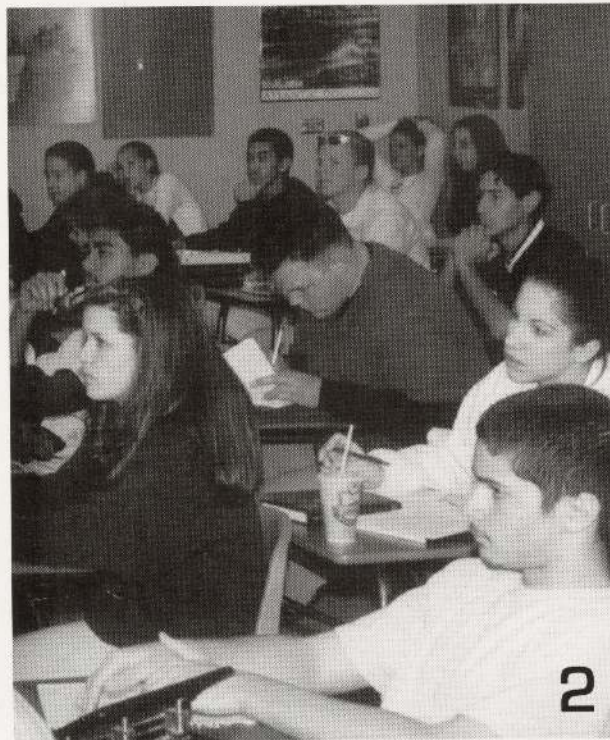

Mathematics is the language we use to describe our world and our universe.

This rich language can be used to explain topics seemingly as diverse as Rubik's cube or the structure of atoms. Then, perhaps surprisingly, it can be used to relate the two.

This is but one example of the power, the beauty, and the wonder of mathematics.

- Mr. Dilger

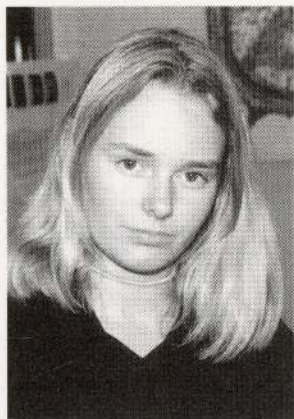

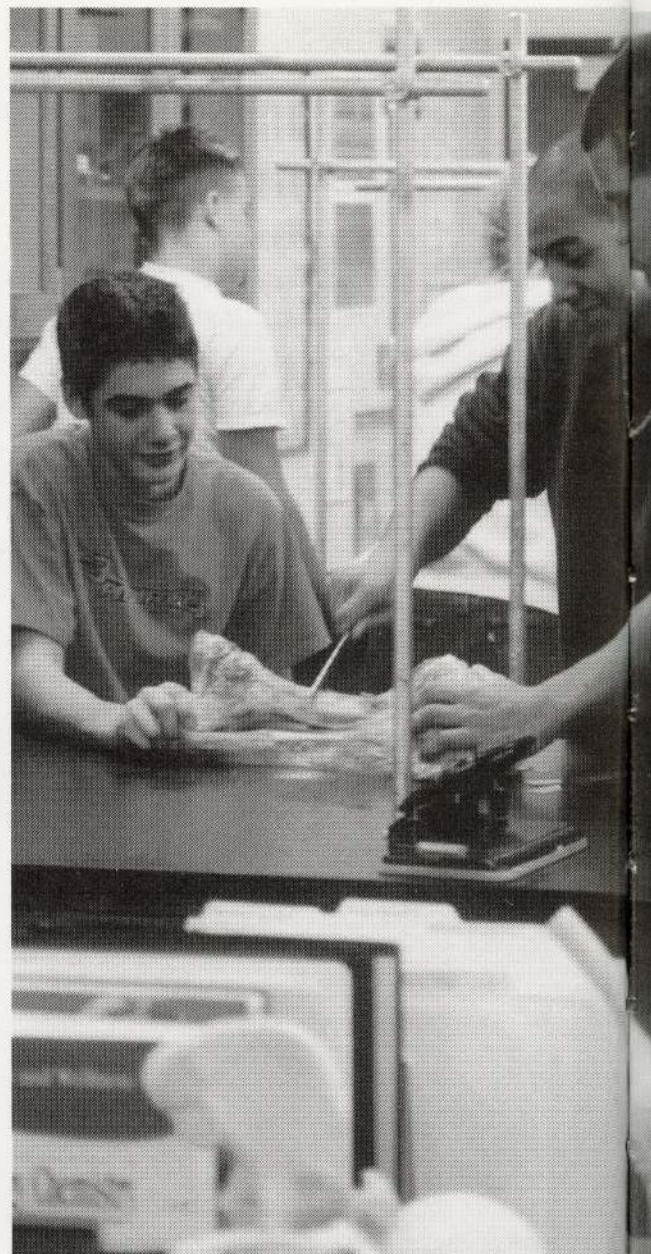

1. "Now *that's* show you find the greatest common multiple of 96 and 40." Mr. Raevouri instructs the class on the basic mathematical concepts crucial to future classes. 2. The ideal class, not a single soul with wandering eyes. Whatever they're learning, it must be pretty interesting, after all, it's math! 3. "This test is just a figment of my imagination, I bet when I wake up, it won't even be there!" 4. Yaaaaawwwwnnn... What? Calculus, boring? Never! Ben Gurner fights to stay awake during 4th period math. 5. What's the best subject to take during zero period when you're barely even awake? Mr. Burrill's honors pre-calculus of course! Everyday these few hard working students manage to wake up and come to school at 6:30am to take their all time favorite subject; nothing like a little math to start off your day (better than coffee). 6. Ms. Fenn: "The derivative of  $\log_e(x^{2x+1}+3x)$  is equal to  $1/(x^{2x+1}+3x) \times (x^{2x+1} \times \log_e x \times 2 + 3)$ . Student: "Psst... did you get that? What the !\*#\\$^& was she talking about?" Students in Ms. Fenn's AP Calculus BC class try desperately to grasp the new mathematical concepts. 7. "Cooperative learning aids these students in math."

# The Scientific World

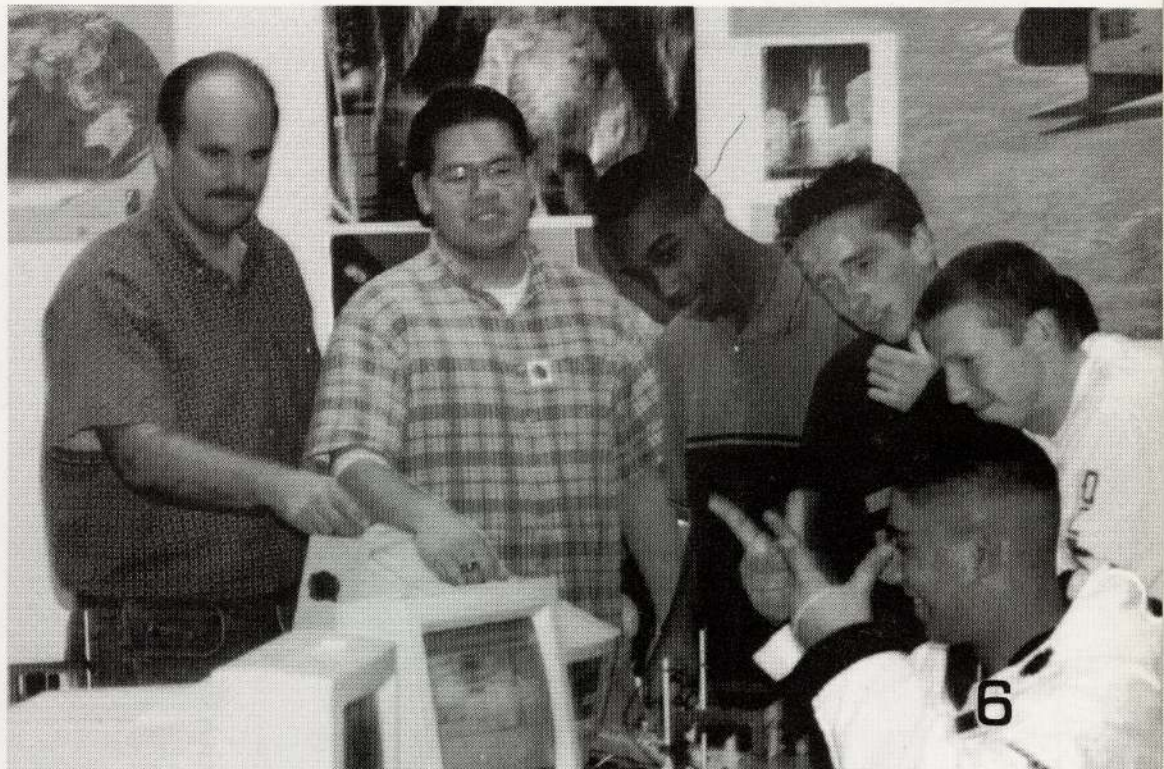

1. "Talk about disgusting" Anne Marie Hart digs into the bone she is examining. Her anatomy class requires this lab as part of the class. 2. "Look at that" Molly Bramsway and Cristina Wright look at their results. Science is all about experiments. 3. "Let's dig in" Kaelen Jakes and his lab partners scrape their bone. This may not be the best part of anatomy. 4. "You want us to do what?" Tony Palmeri and his lab partner haven't even touched their bone. They didn't even unwrap it. 5. "Let's see what will happen if....." Julius Harper prepares to view the results of his physics experiment. A bunch of students attempted to pull a car across the parking lot. 6. "What's so interesting?" Mr. Duncan and his students are intrigued by what they see on the computer. The computer displayed all the calculations of speed.

# Through The Ages

History is not just about facts, dates, and events that happened too long ago for anyone to remember, history is about people. How they survived, what they did to survive and how they lived. History affects us whether we know it or not. As VHS students, we have learned how to survive the dramas of high school life.

1. Mr. Silsbee makes his message clear by using a microphone as he teaches the values of history 2. Mrs. Stiman watches her students like a hawk as they take their tests. 3. The students tentatively pay attention to their teacher's lesson. 4. Alonzo has a smirk on his face because he is so smart and he knows the answers. 5. Zilart tries to hide himself by putting his hood on his head. 6. James pays close attention as Mrs. Stiman is talking. 7. Chris tries to get Jose's attention while the teacher is not looking.

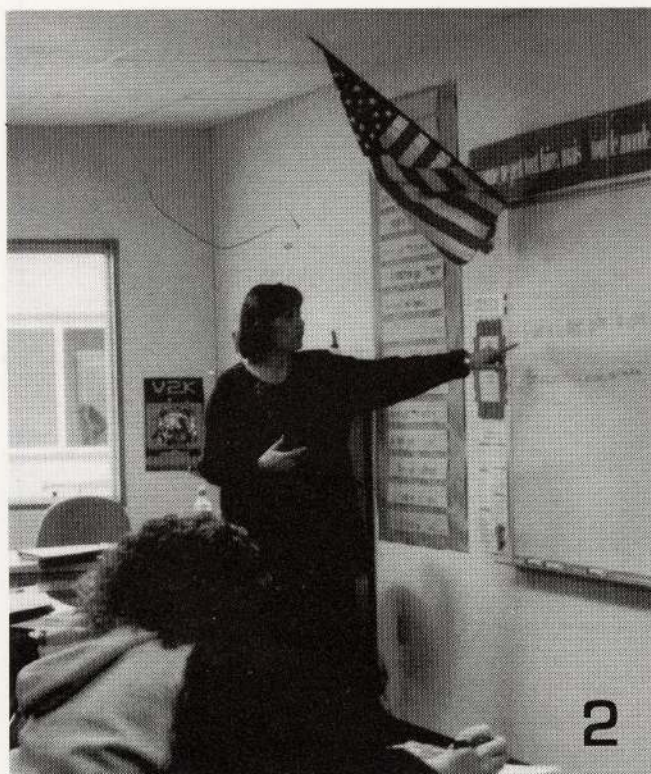

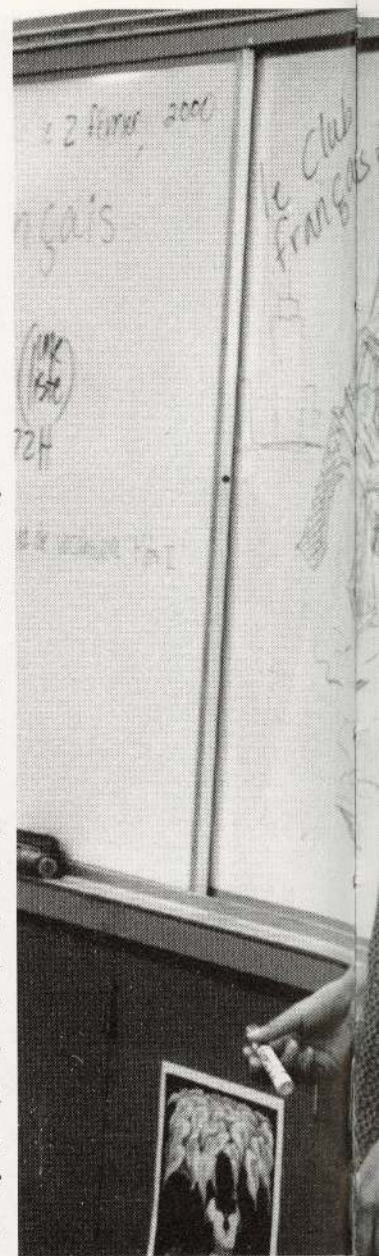

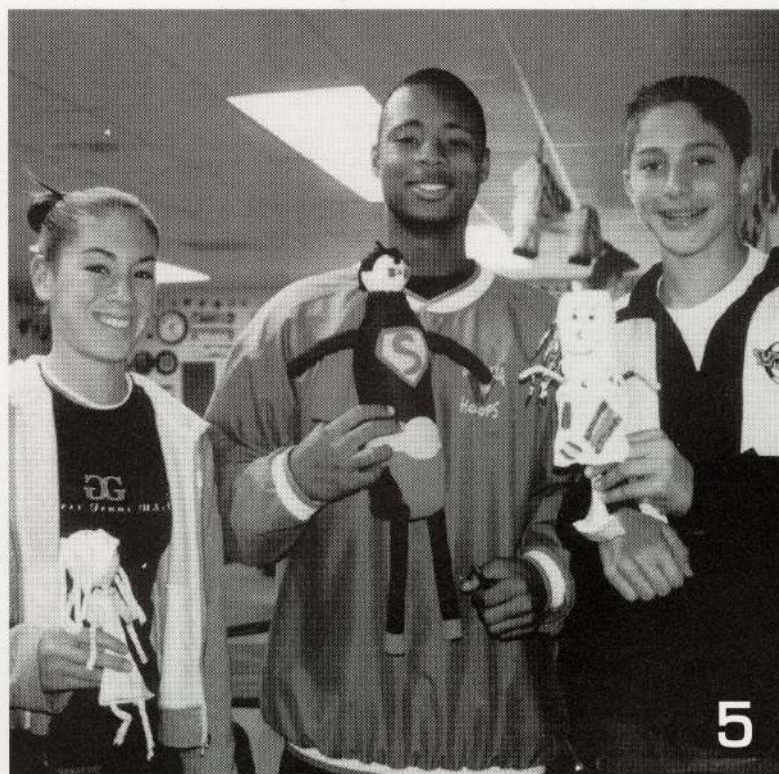

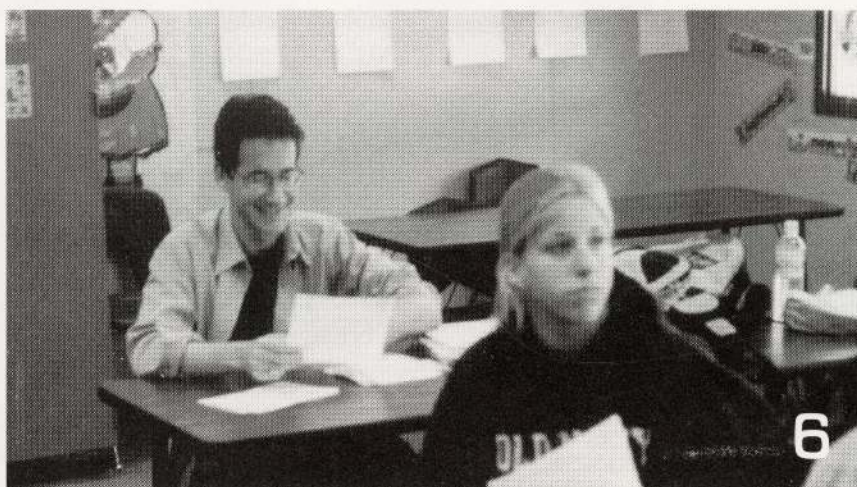

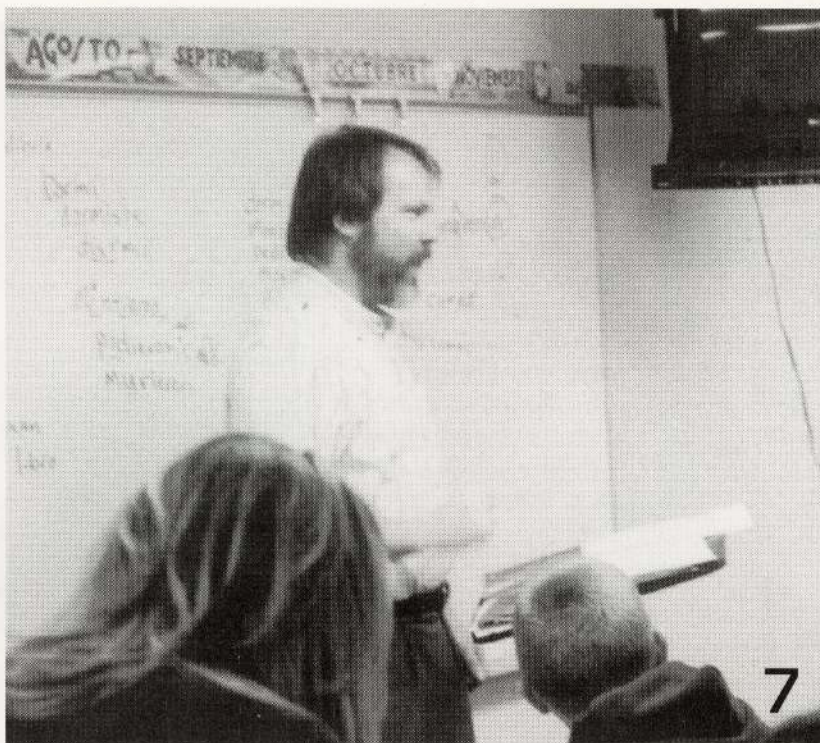

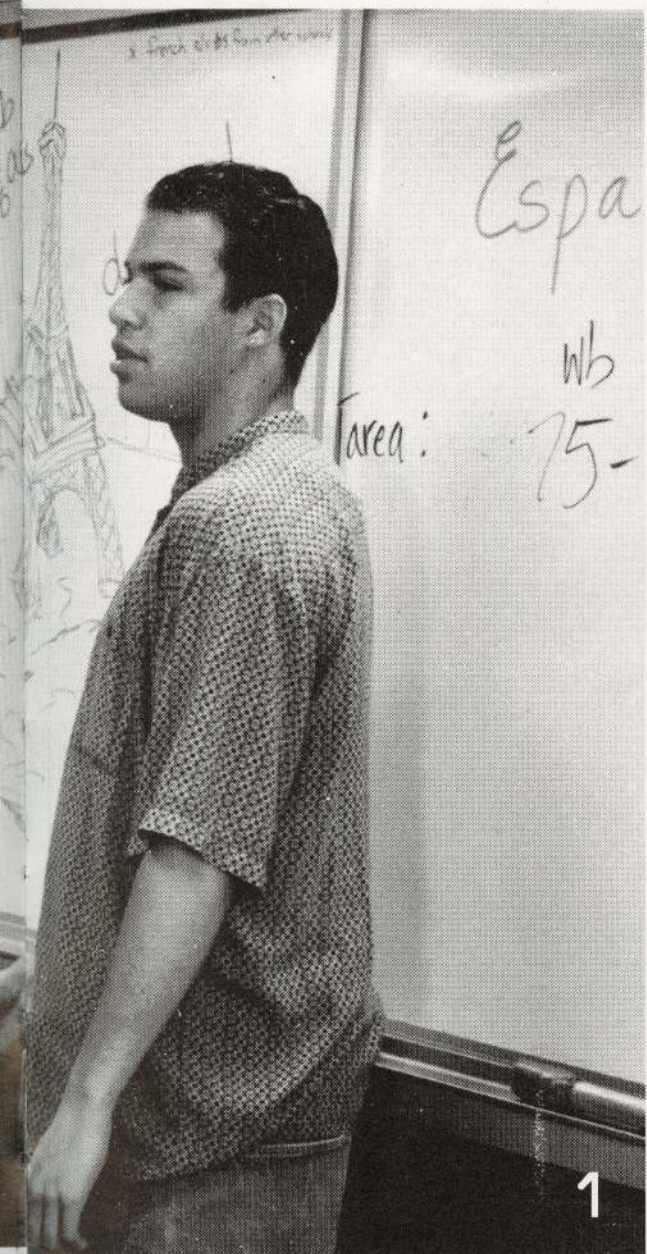

# DIFFERENT Ways DIFFERENT Languages

1. While standing next to his drawing of the Eiffel Tower, Justin Hunt talks about French class. 2. Mrs. Langdon is having fun teaching her exciting French Class! 3. Mrs. Wroblewski's class dolls are waiting to walk down the runway to show off their wonderful outfits. 4. Are you hungry? Kevin Rosenberg couldn't wait until lunch so he is eating in French Class and Jen Grossheim is munchin' on snacks. 5. Natilie Mueggler, Albert Ingram, and John Schubeck are modeling their dolls for the Spanish fashion show. 6. Is this interesting or what? Carolyn Colley and Kevin Rosenberg are enjoying class. 7. Mr. Duncan is always putting a smile on your face when you walk into his class.

# What do you hope students get from your team?

Mr. Mast: It infuses the two disciplines of history and literature so students can make connections between the world and the class as a whole.

Ms. Arnold: The team provides context for learning social and historical content, as well as provide an alternative method for assessment.

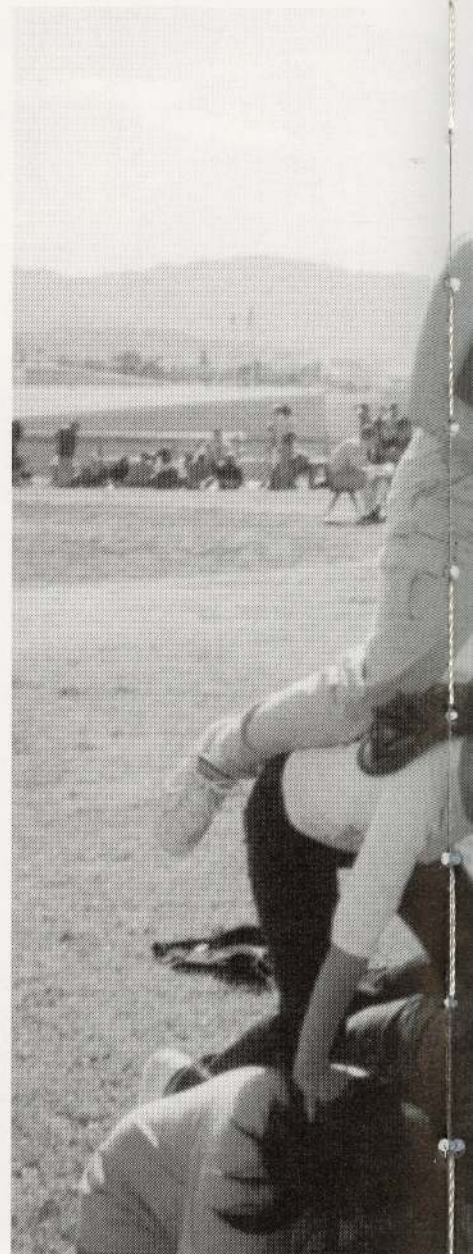

Mr. Hayes: It integrates different curriculums to make it more interesting. It gives both traditional and innovative ways of learning. It also develops teamwork and develops skills.

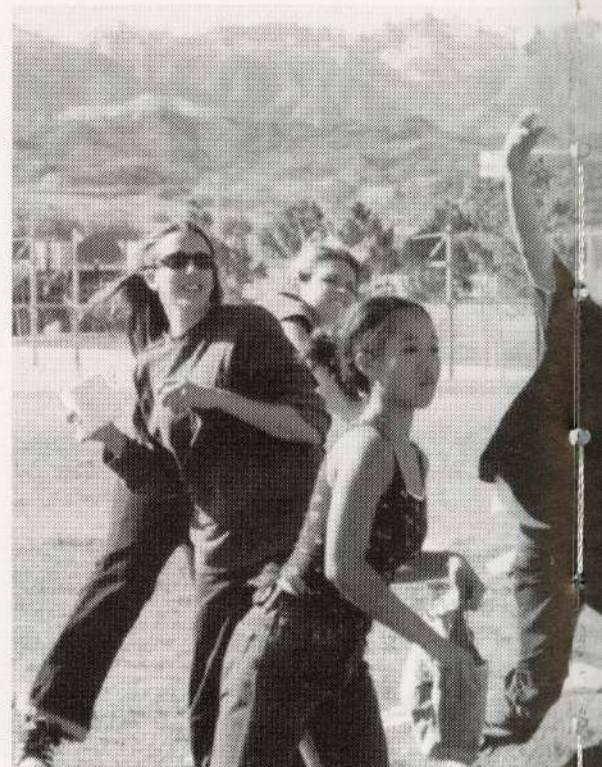

Ms. Leggett: The team prepares students for the real world by emphasizing the need for respect, initiative, trustworthiness, and honesty.

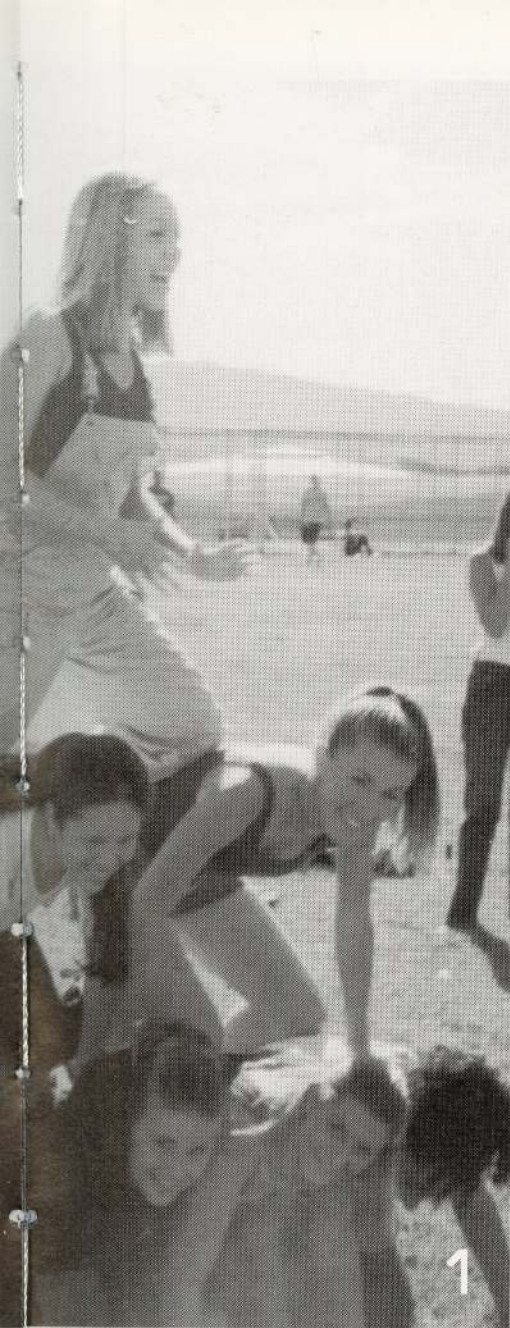

Mr. Swanson: To overcome Kilmer's fascination of death. But also to get the deeper meaning of the Simpson's.

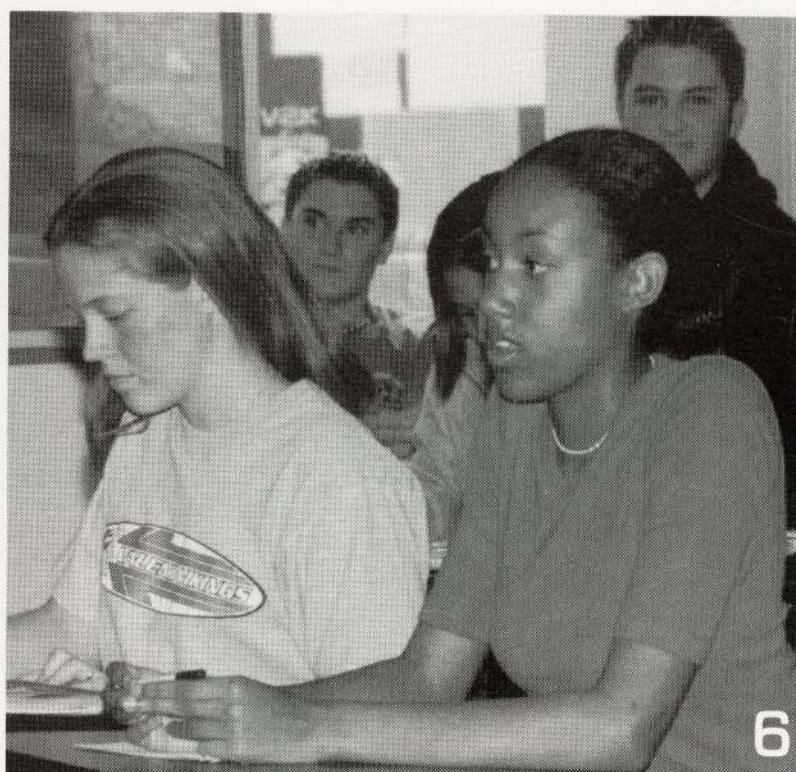

Mr. Kilmer: Most of the times, students see literature as some boring dead guys and history as lots of boring dead guys. The team shows them what dead people have done for them lately.

1. "Watch out below!!" Heather May tops of this girl powered pyramid, with Michelle Naranjo, Michelle Poor, Liezl Hanson, Lyndsey Sheldon, Erika Haines, and Amber Orr down below. While most students fell asleep during the two hour earthquake drill, the Swanson/Kilmer team had their own set of drills: building up team support. 2. "Who's your stylist?" Kasra Ajdari, Victoria Phipps, Alex Dunwoody, and Kari Josselyn flash back to the good ol' days for their presentations for Mr. Hayes. 3. "What do you mean I don't spoke well English?" asks Chris Brugman at the US Customs. Immigrant inspector Jerrod Webster looks through his passport to see if Chris is worth letting into the country. 4. "We're under attack!" Jamie Hartman, Socheata San, and Brandon Lane defend their trench during the recreation of Trench Warfare WWI. 5. "I need more tape. It's falling over!" yells Tony Spiro alongside with Chris Brugmann and Ava Alamshah. A sturdy post will help block the bags of flower and toilet paper that are being shot at you. 6. "Hey Katye, can I borrow your notes for the test?" asks Schuyler Thomas. The best thing about teams? Making new friends, such as Katye McGill.

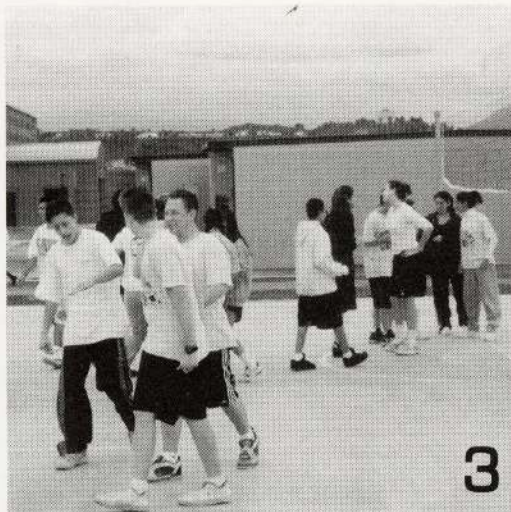

# ALL STAR TEAMS

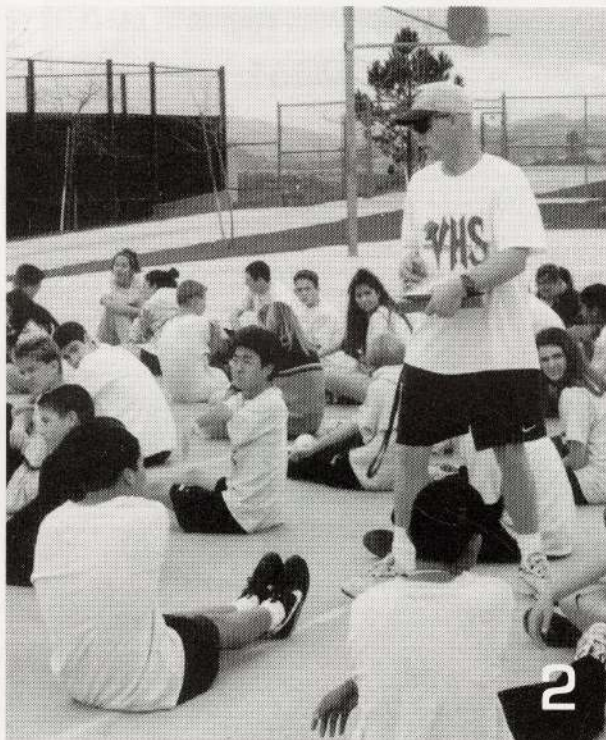

# Physical Education

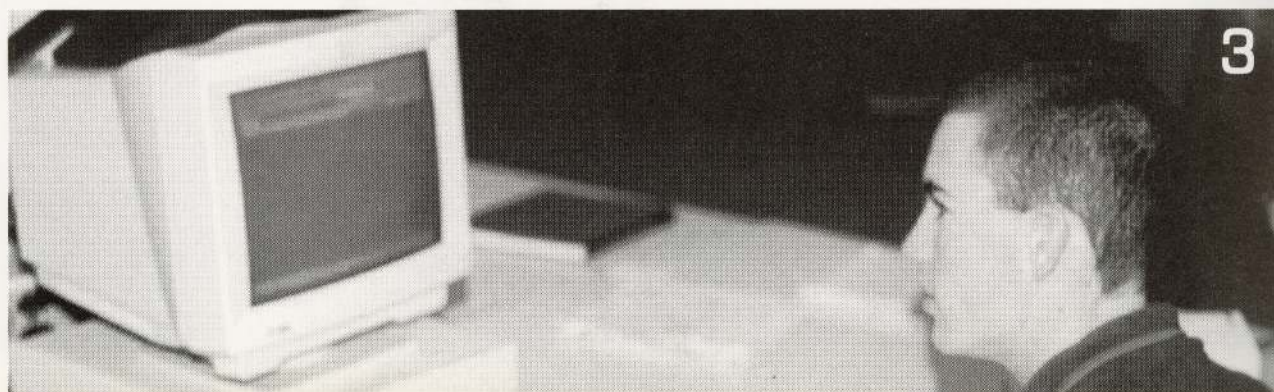

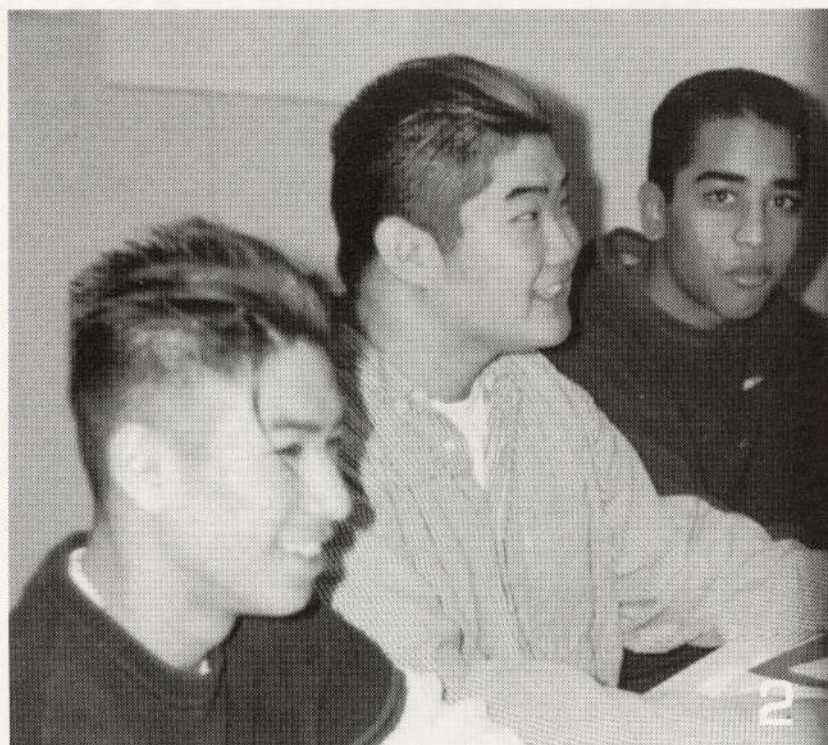

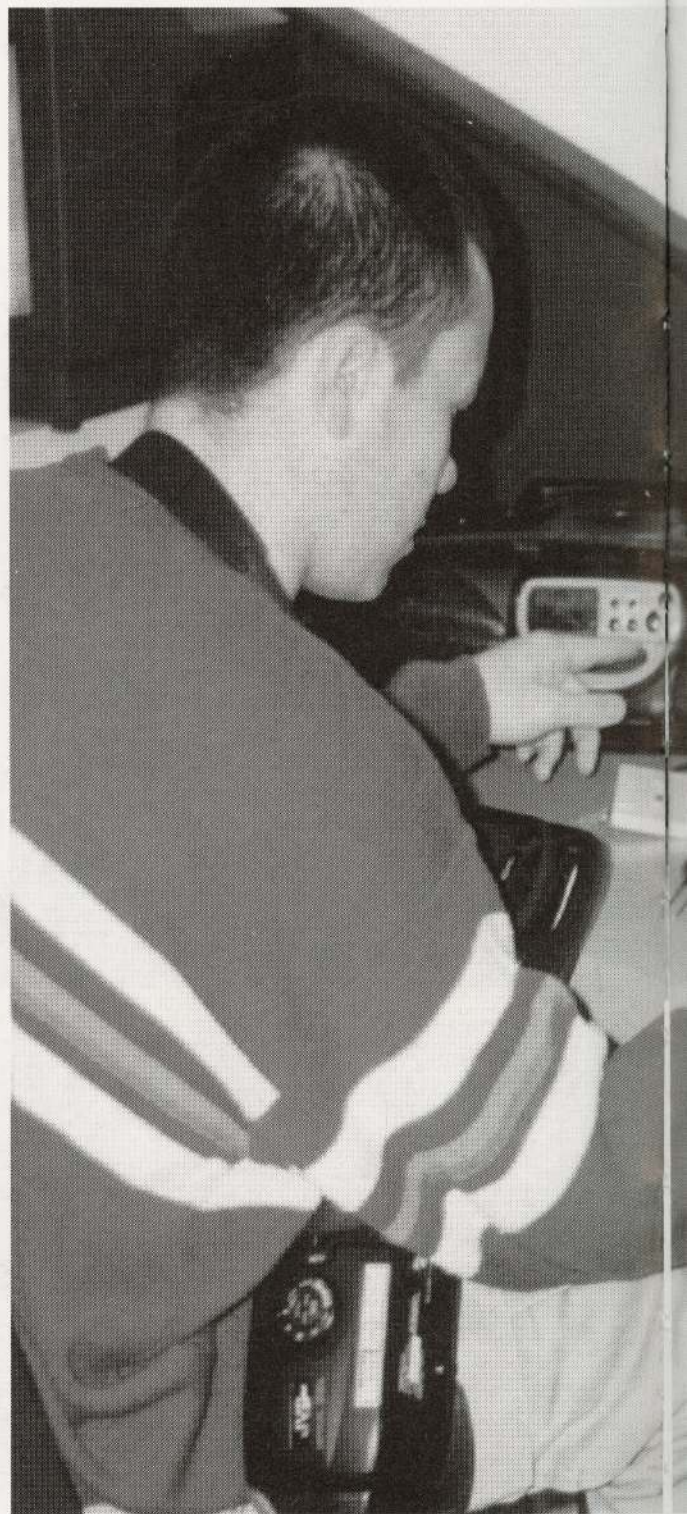

## BUILDING THE BODY

1. Josh Albert takes the lead after the tiring mile run most students are not accustomed to. 2. Mr. Holen is teaching his class and at the moment they're stretching and getting ready for that day's physical education. 3. Some days the teachers take a break and give free days. Many students play on the courts or relax on the grass. 4. Ready, get set, go! Here students are starting off their run, giving it their all. 5. Students listen carefully to Coach Kornegay as he explains the day's instructions. 6. Practice makes perfect.

# Future becomes Reality

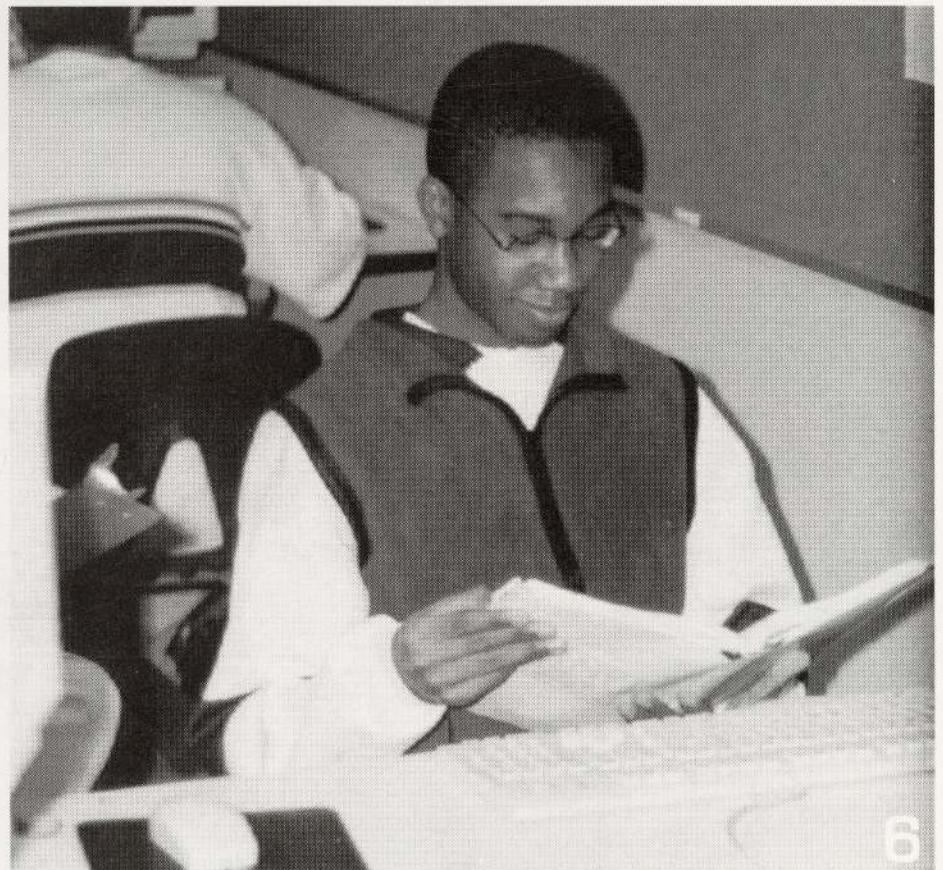

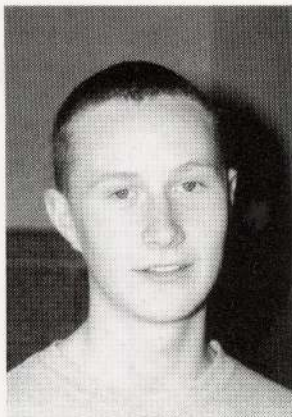

Years ago high tech computers, the internet, and other technology was just becoming popular. We all saw ourselves being involved with it some day and now it has become a reality. Many of the everyday things we do revolve around new technology, even here at VHS.

1. Natalie Branche, in video production, works on one of the many computers at VHS. 2. In Mr. Dogget's class, David Pagdangonan and his fellow classmates are enjoying the hard work and relaxed environment. 3. Nate Hartman is committed to his work 100%. Working on computers can be addicting. 4. So many things to do at once! Frank Pula works with the video controls to prepare for VTV. 5. Mehul Patel studies the screen while awaiting further instructions. 6. While working on the computer, Julius Harper looks over his notes for guidance.

# Students Speak Out

Brandon-

"It was alot of fun and we had fun making vid-eos."

Kyle Cadoff-

"It was a fun class and taught me the value of team work."

Shelby Shively-

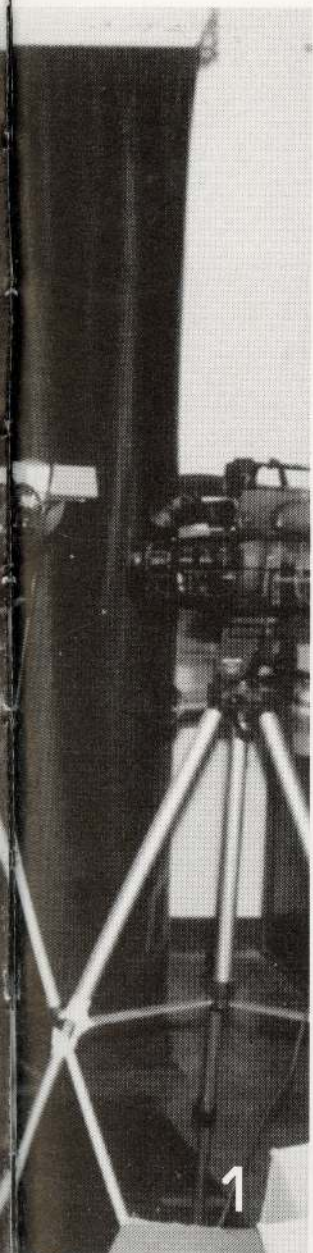

I liked the diver-sity of people working together to create exciting and fun productions.

Travis Ryan-

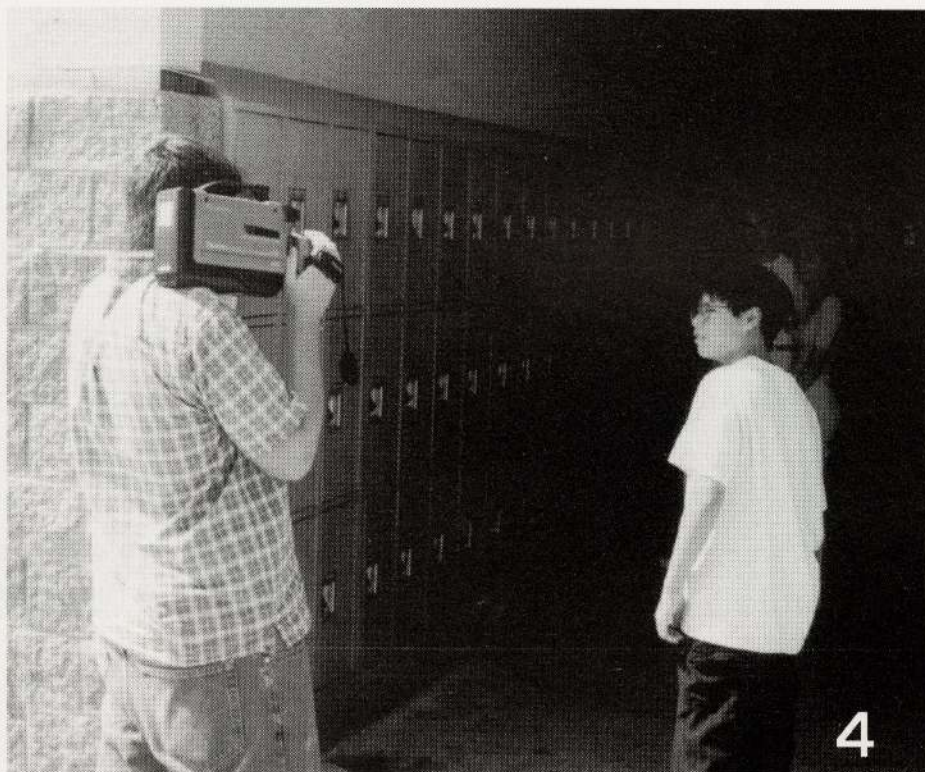

It gives people a chance to express their interests, no matter how weird.

# For The Movies

1. Adam Luz waiting for his debut on VTV. 2. These are just some of the technical devices used to do the sound for VTV. 3. In these classes they have some very expensive equipment. 4. Surprise! Here one of the many Video Production students is videotaping an innocent bystander.

## Mrs. Wright

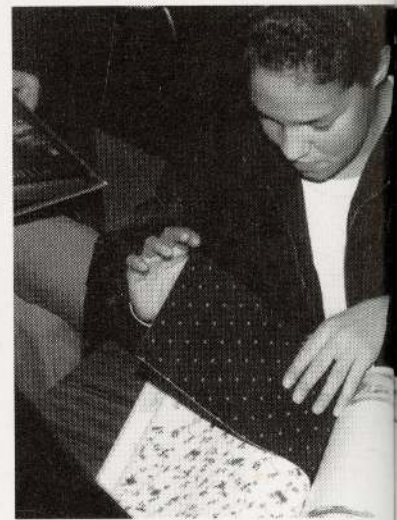

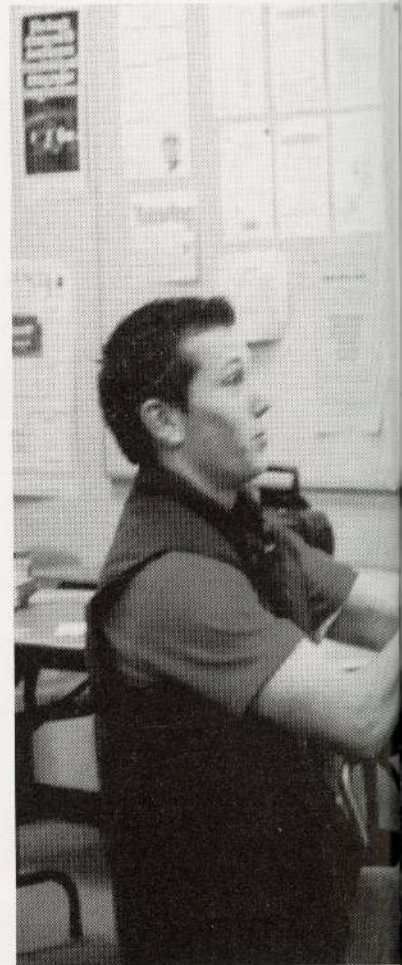

“ROP offers students a chance to experience a career before they go off to college. It helps them figure out if it’s for them or not.” Many seniors leave Valencia without a decision of what to major in. Not many of them know of the opportunity that they missed out on. Through ROP classes, students can fight real forest fires, work with lots of money, learn how to design sets, and also show their acting talent. The only requirement is that they need to be at least 16 or a junior.

“New classes are always being added to keep up with the new occupations. We also want to follow the trends so that the students can benefit.” With the digital world on the move, look for a digital photo class to possibly be opening up.

“Businesses are eager to help us out.” Bank of America, Sunshine, and K-mart are some of the better known companies that lend a helping hand out to students of Valencia.

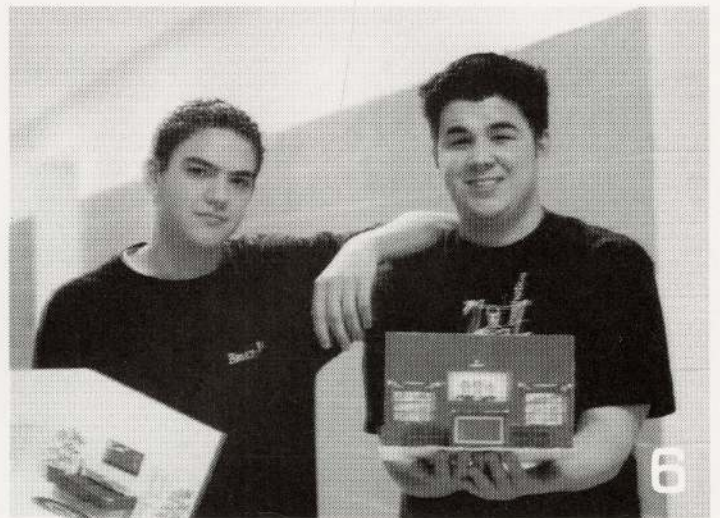

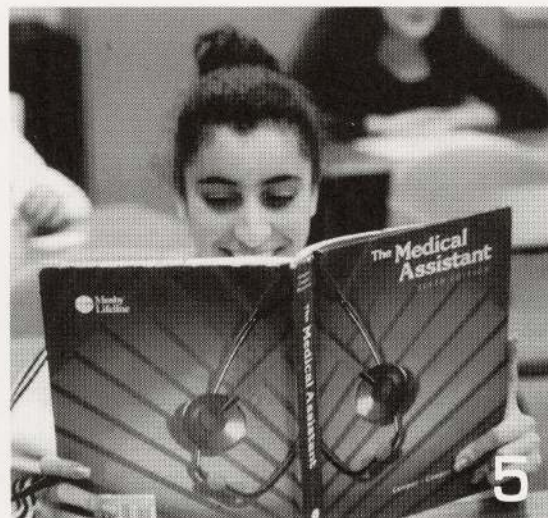

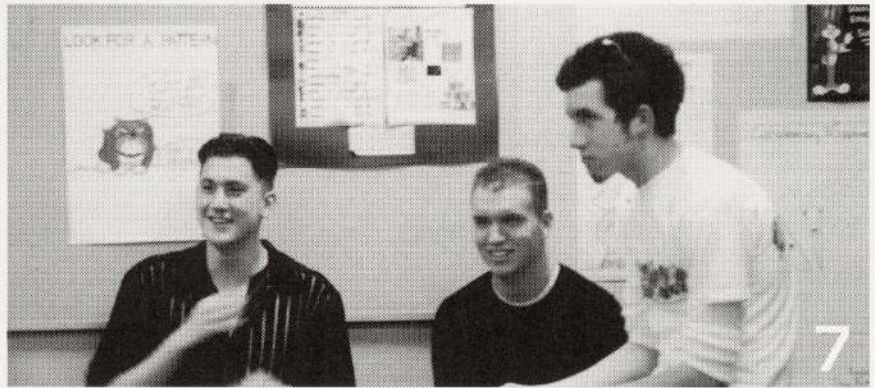

Besides being fun, the classes can be used for credits for fine and practical arts, sciences, and also electives. See Mrs. Wright in the ROP office to find out about all of the classes available to you.

# Really Only Playing...

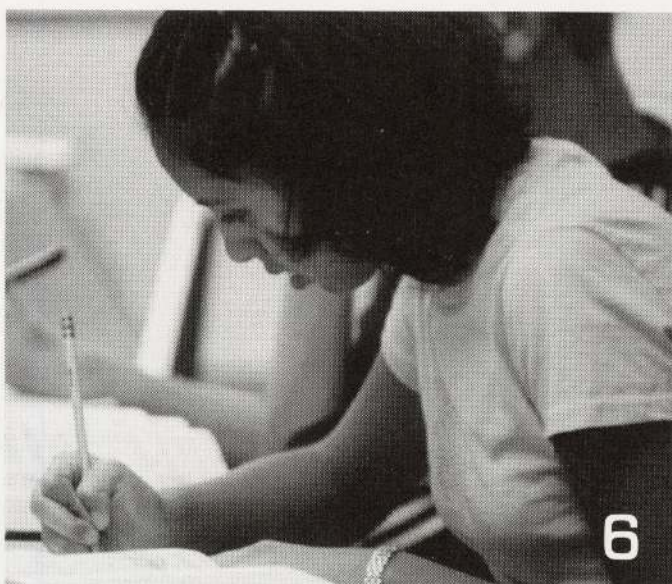

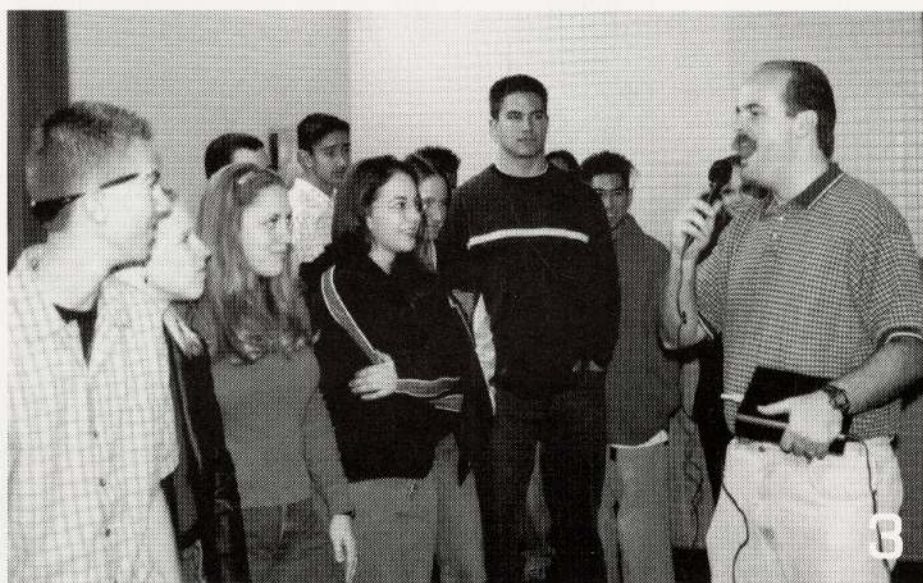

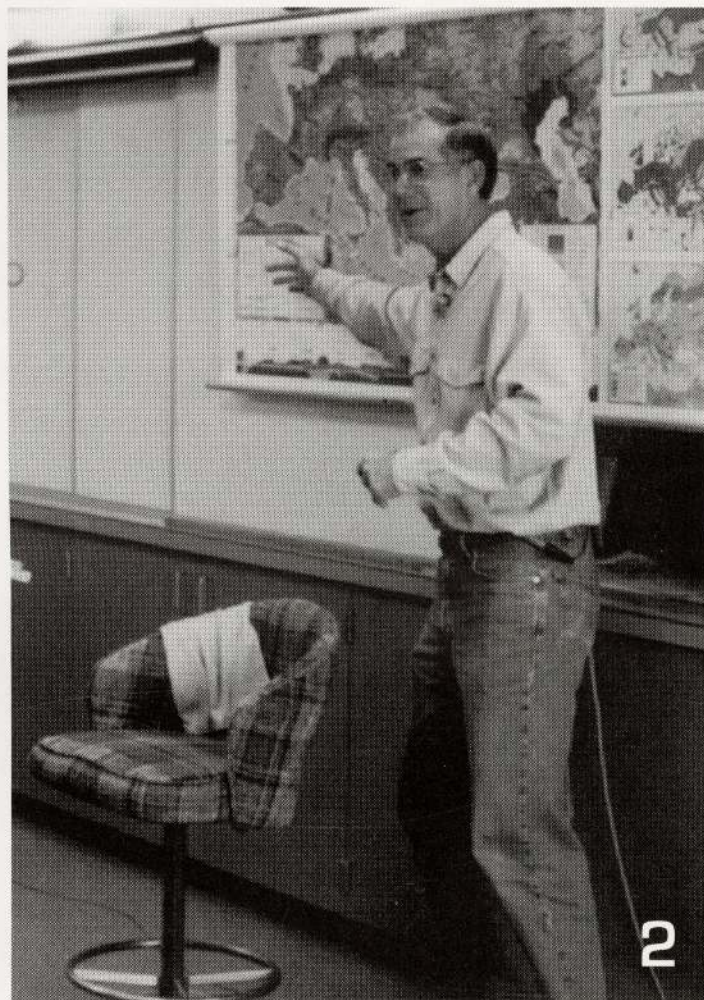

1. "Treat me like a princess" It is the only way Ashley Rossiter will accept Jeremy Howton's proposal. Jeremy's reply? "Forget that!" Guess she needs to find another Prince Charming. 2. Congratulations on your completion of our class." After a successful semester in every ROP class, each student receives a certificate of completion signed by Mrs. Wright. 3. "That wallpaper would look perfect in the master bedroom!" In the Interior design class, students like Nicole Salls design each room of a house with carpet to match. 4. *Wendi Piere* a junior here at VHS is taking an aerobics class bright and early in the morning. She both likes and dislikes taking a zero period class. For Wendi, getting to school at 6:30 is not the easiest thing to accomplish. Especially when it is aerobics that she's getting up so early for. She doesn't like getting up so early, but knows that it is good for her.

Although there are disadvantages to taking a zero period, there are also many reasons to take an earlier class. Wendi is able to have an open first and sixth period. This free time definitely pays off when finals come around. Could these advantages persuade Wendi to take another zero period in the future? "Maybe."

excerpt from "Scarlet Letter Essay"  
Allyson Peters

**"... Human nature seeks always to be accepted by society. In everything man does publicly, he does it with the hope of being accepted by society. The way he dresses, the way he talks, even the way he lives his life is largely done in accordance to the socially accepted standards of the time. No matter what his age, man lives his life with the purpose of pleasing others. Without the need to feel accepted, far fewer teenagers would begin drinking, help friends cheat, and spend obscene amounts of money on the 'right' brand names for their clothes. Man simply cannot escape his fundamental need to be accepted without subjecting himself to a lifetime of psychological pain..."**

excerpt from "Walden" Essay  
Adam Miller

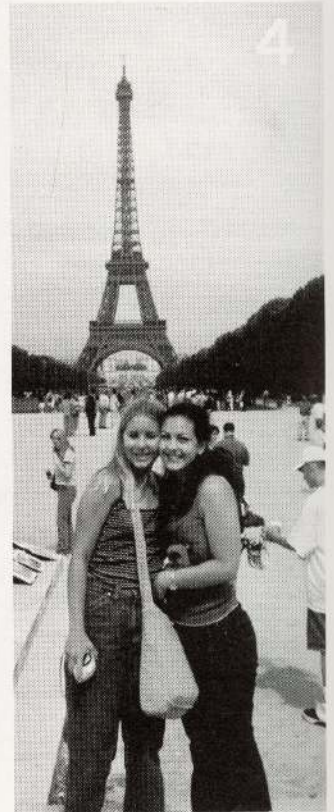

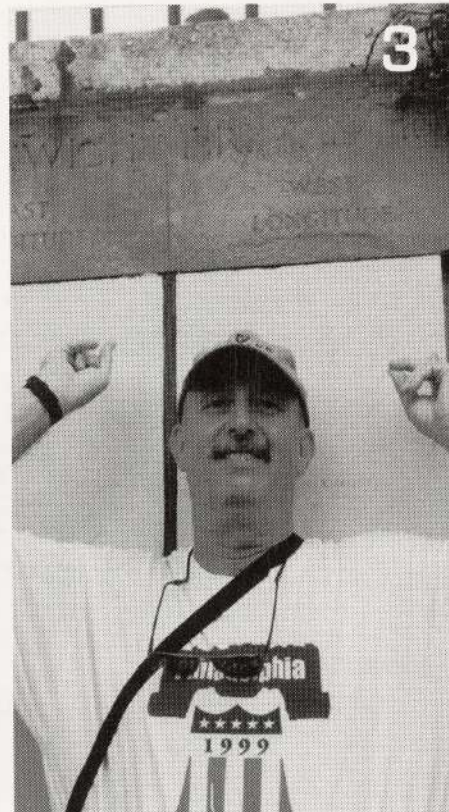

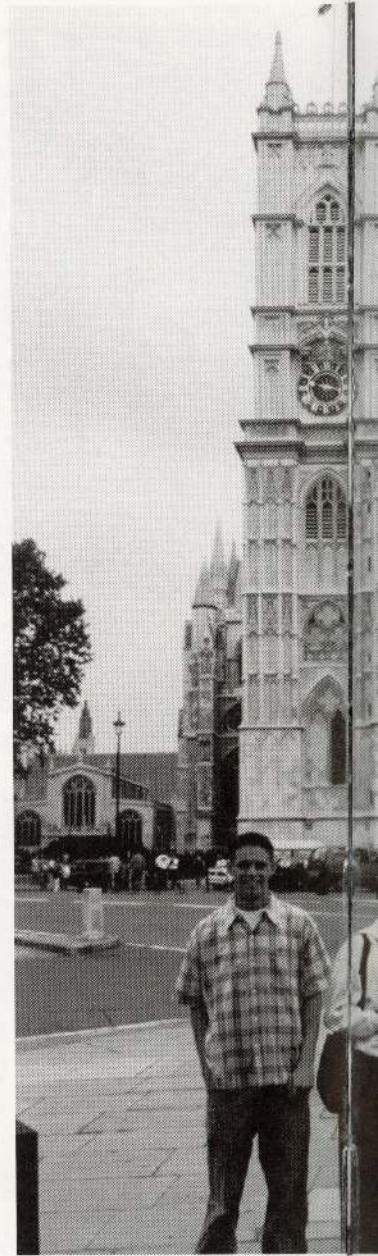

"... Inherent in human nature is the desire to be superior. In feudal England, nobles continually constructed intricate castles in hopes that each would appear the most impressive. As a result, some of the world's most notable architecture was created as a result of man's need to transcend his opposition. In order to feed his desire for superiority, man looks to improvement through complication. In his view, complexity represents skill; skill represents worth. Therefore, man attempts to prove his virtuosity through blatant complexity. The more complex, the more impressive..."

-Club Day-

"Do you have a pen?" "What's my 4th period class?" "What's the Othello club?" These aren't the voices inside your head. This is Club Day. The day you can't possibly forget. Why? Because you have 40 different clubs all crowded into the quad fighting for signups from the students. While some may think it's WWV (World Wrestling from Valencia) others see there is a method to their madness. Clubs make the world go 'round, and give you something to do in your spare time. Not only are there the scholastic clubs formed by the school, students also have the opportunity to express their individuality through creating their own clubs. Michael Blitz started his Nerd Club, and Kodi Cipperly started a Breaker Club.

Join my club! Join my club!

# Set it up Spike it down

1. What can't this girl do? Jennifer Edwards not only maintained a high GPA and held ASB office, among many other various achievements, but as captain she led this year's team as a setter, friend, and virtually a coach on the court. Though she has not been setting for long, her hard work has made her the best setter in the Foothill League. Her talents have also earned her a full scholarship to Villanova in Pennsylvania where she will also be a setter. 2. No worries, Gracie will dig that...ball. Junior Grace Mejia-Wetzel came to Valencia as a sophomore to play opposite on JV. This year she successfully made the transition to Defensive Specialist. It was her precise serving and passing that helped the Lady Vikings achieve League Champion status. 3. High hands. Jennifer Edwards and Sara Foster are on their way down from stuff blocking a Canyon hitter. 4. Viking Territory. Between games, Coach Ray Sanchez offers advice and motivation to the team, and reminds them that they have not lost a home game in 2 years, something that this team takes pride in. 5. A couple of studs. #1 Jaime Csernay and #2 Grace Mejia-Wetzel stand on the back line before the match against Hart. 6. Huddle up. At the beginning of each game the girls got together at center court to get pumped up for the game. They could also be found outside the gym, home or away, before every match singing and dancing to some of their favorite songs. 7. LEAGUE CHAMPIONS!!! You may hear Lauren Beasley yelling this as she walks around campus. All of the girls were ecstatic at their achievement and could hardly think of anything else after crushing Saugus in their final match. 8. On your toes! Sara Foster and Jenny Bader prepare for the opponent's serve. Seniors Sara and Jenny have been on Varsity since their sophomore year and were vital to both the offense and defense of the team.

High hands. Ashley Dickenson and Chandra Ferrer are on their way up for a block against Hart. This year's JV had many great digs and blocks against Hart.

Here it comes, here it comes! As setter Bri Haigh releases from the back row, Carolyn Cornelius shuffles to meet the ball for a perfect pass. This year Carolyn played right side for the freshman team, and hopes to one day make the Varsity Team like her sister Catherine.

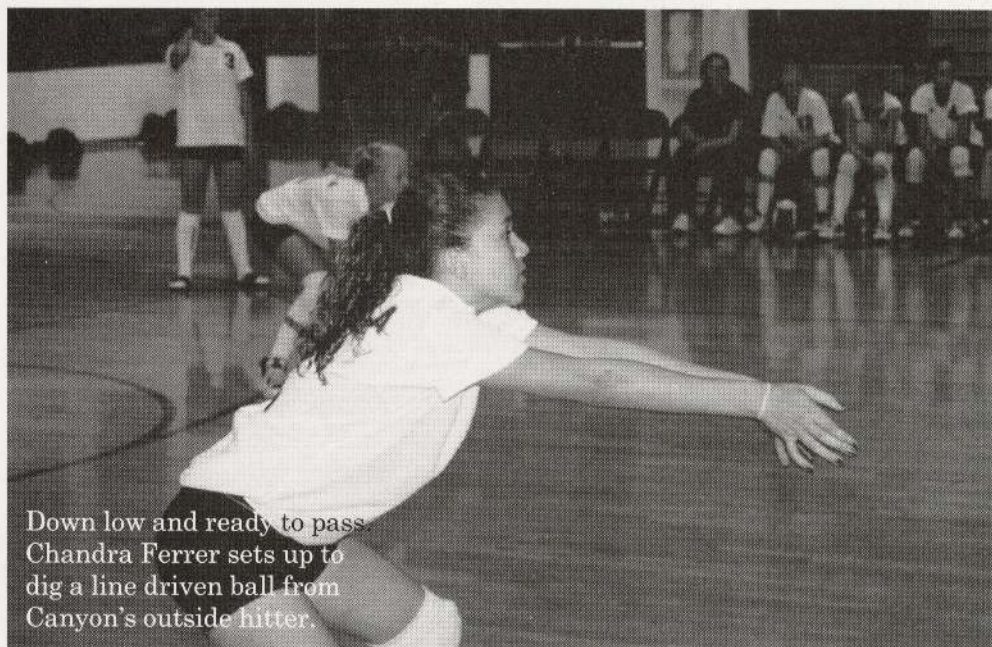

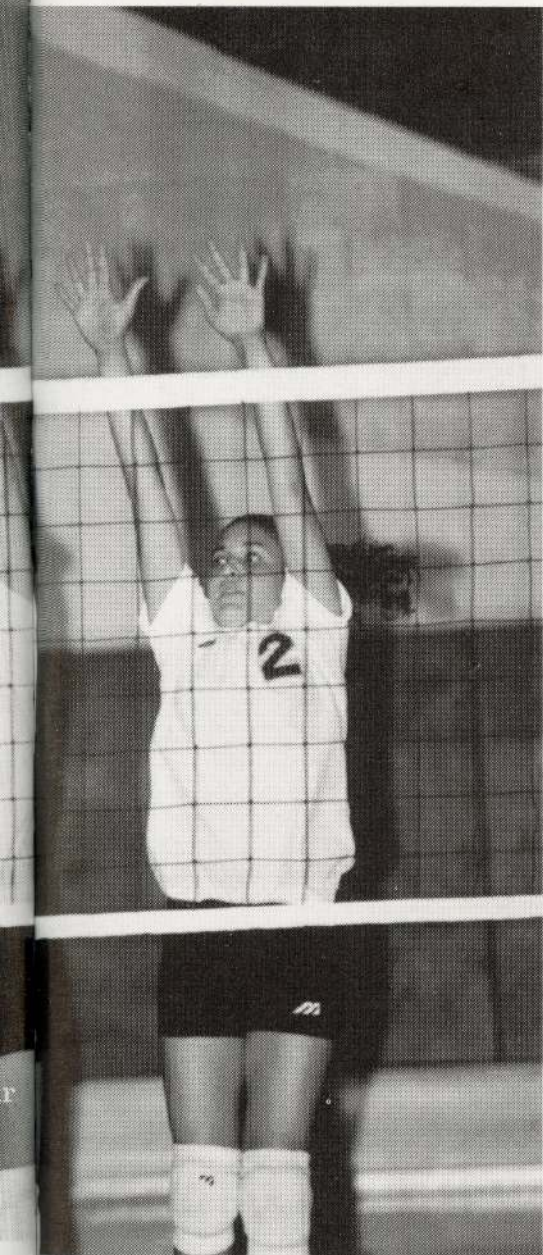

**KIDNAPPED!** Each member of the Freshman Team was awakened at about 4:30 in the morning by a loving Varsity Player, thus beginning a new tradition. Despite it all, these girls came to love and admire their champion Varsity Team, just ask Bri Haigh and Tierra Burnley.

Although the team didn't make it to championships, Julia was ranked as the number three player out of the whole Foothill League. 3. Superstar Ashley Herrera was the only freshman to be on varsity. She used her amazing athletic talent to win the

Palmdale Freshman Tournament. 4. Varsity gets lined up for the game. Valencia tennis is known for their sportsmanship. 5. JV began and ended every game this season in an energy circle, designed to bring the team closer together physically and mentally.

Junior goal keeper Courtney Schroeder is in the motion of kicking a 'power boot' that will soar thirty feet in the air and finally come down at the feet of the awaiting forwards.

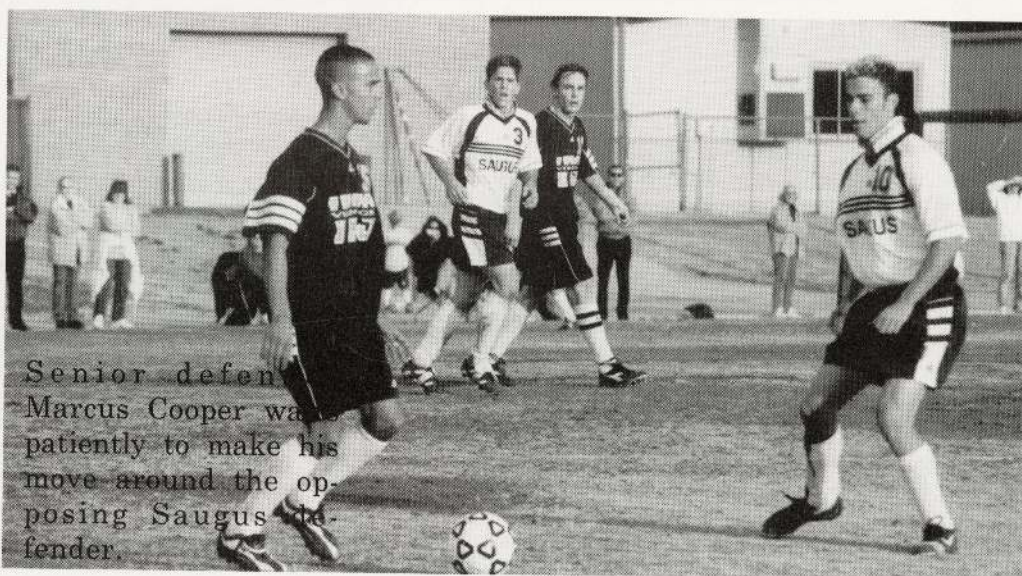

Senior forward Kevin Magon prepares to receive the ball and then dribble towards the goal.

# Making New Waves

Stroke, stroke, kick breathe. The torture all begins with “Hell Week” when the swimmers’ technique and stamina are tested. After this long week of lap after lap after lap, you find out if you’ve made the cut to be a part of the Viking Swim Team. With this great privilege you have the chance to wake up at the crack of dawn, swim until you can’t take it anymore, then deal with the every day hardships of school. However, swimming is a great sport that utilizes your whole body, looks good on college resumes, develops stamina and discipline, and most importantly, gives you personal pride.

Valencia Vikings Basketball

Jeremya Montana, Jose Valaszquez, Will Broadous, David Lausen, Fadi Ahmed, Jeff Smith, Jeremy Bunce, Louie Martinez, Albert Ingram, Alex Dunwoody, Giovanni Fernandez, Royce Minor, Wes Felix

Big Willie Broadous defies gravity while his shorts don't.

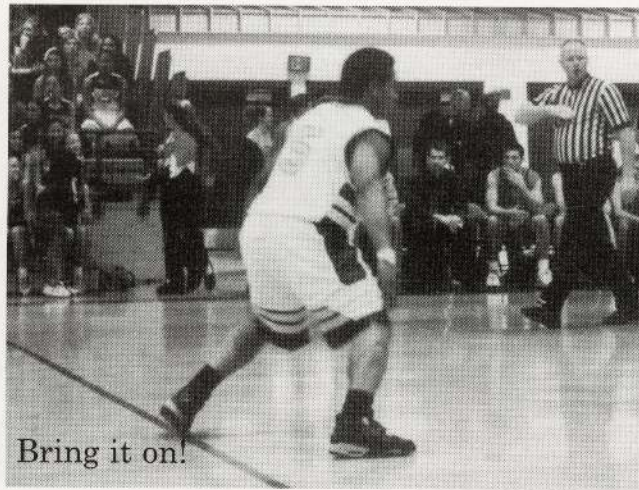

There goes Albert showing off his slick moves.

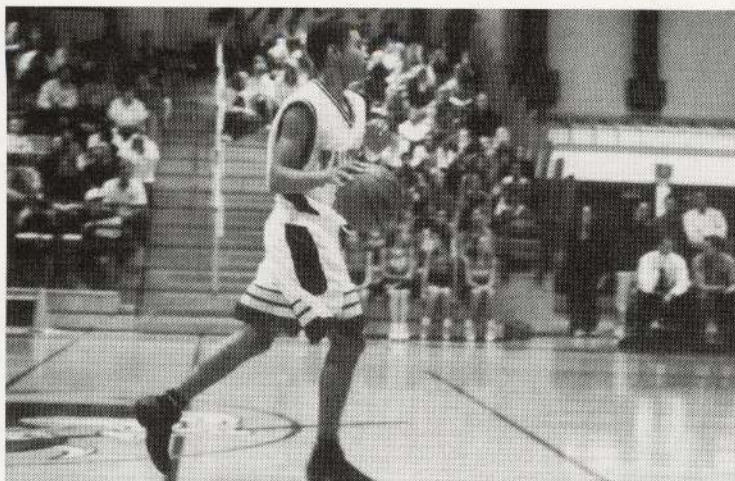

Hey Jeremy!  
Made ya look!

Bring it on!

**Royce Minor's** success at Valencia has nothing to do with his good looks and charm, although it has everything to do with his endurance and determination. While "only the strong survive," Royce has done more than just survive, he's helped lead his team to the playoffs. Royce hopes to attend San Diego State and go on to the NBA. Don't be surprised when you see Royce Minor leading the Lakers to the NBA playoffs.

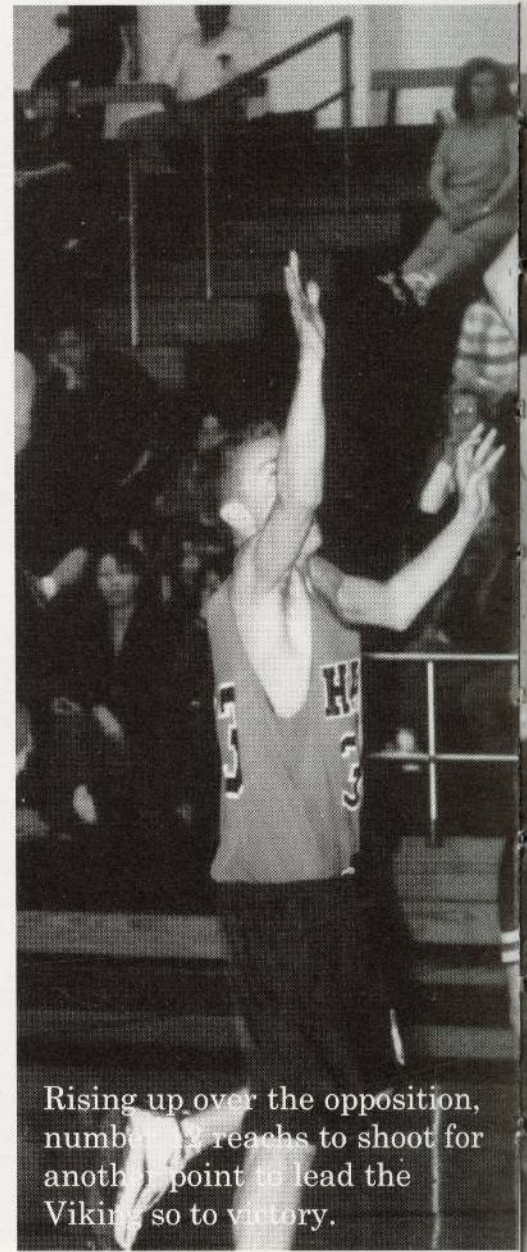

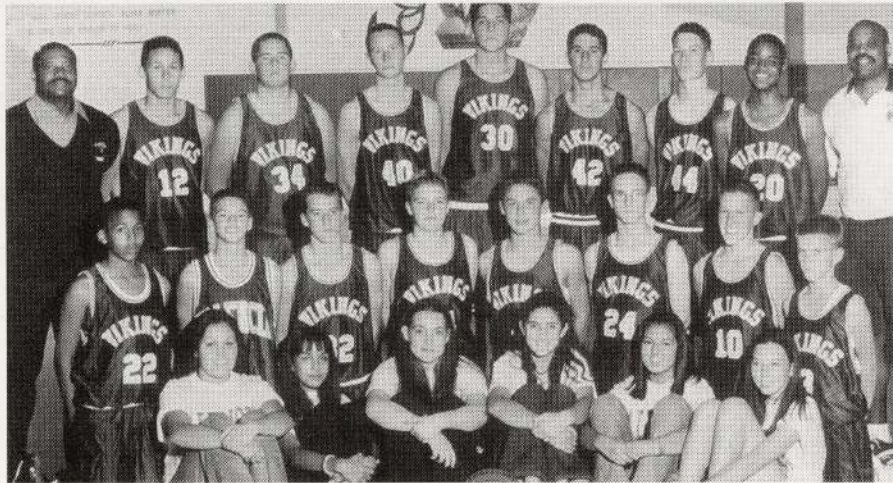

Wes moves in for another earth moving, glass shattering, backboard breaking, game making slam dunk.

"I think I'll just sit this one out." Louie Martinez totally confuses yet another Hart Indian.

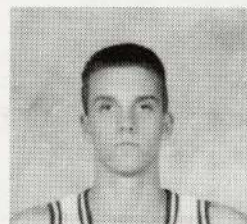

Get me outta here!" Alex Dunwood in hot pursuit of a terrified Hart player.

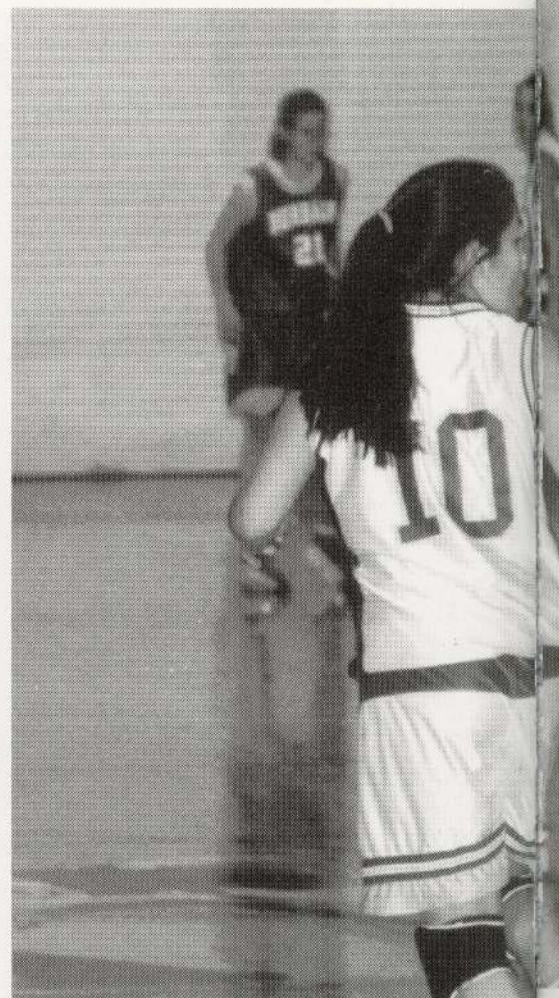

"OK, Mancini, you go long for the bomb... Wait, that's the wrong game."

Underneath his shy exterior, Brian Mancini is an aggressive player. His hard work gets results. According to Mancini, "The offense gets all the hype, but the defense gets the job done." Expect great things from Brian in the future.

"Mancini is a hard working kid, and he will be very successful wherever he goes"- Coach Rocket Collins

1. Throw it right here! Matt Daniel rips it into the catcher, while Kevin Furedi and Mike Hur stand by to take notes. 2. Ready, aim, fire! Andrew Sweigart takes his stance to practice hitting a homer. This time around he couldn't cut it, but wait till the real deal! 3. Ughh!!! Chris Poeczik throws the ball to the infielders to try and make the play. Being an outfielder gives you the chance to keep an eye on the game at all times. 4. SAFE!! Bob Davis makes it in safe, even though it was a close call. Brian Mulligan always guards his base with his life. 5. Ready? (BAMM) Ready? In for the kill. As Sean Summers sets the ball, Darren Breedveld comes in to hit a quick set. A new student this year, Darren added valuable experience to the team.

Swingin' high. Right side hitter Jon Rosene hits a line driven ball. In addition, middle blockers such as David Lauf were vital to this year's offense.

This is how we do it. Assistant Coach David Peterson explains to JV players the mechanics of blocking. These tips helped them when jousting at the net during season games.

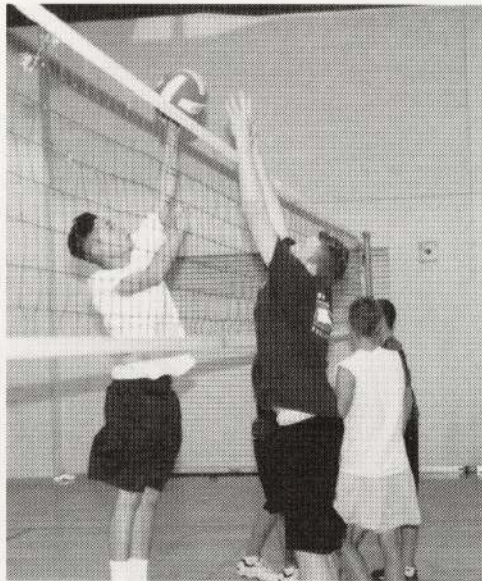

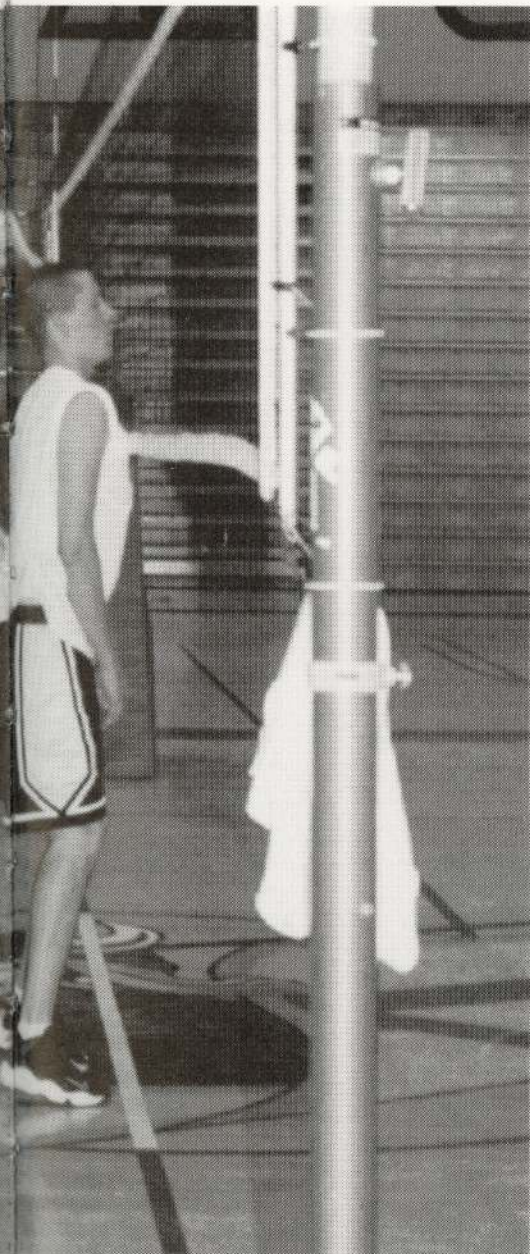

Perfect form. Junior Corey Feldt takes the ball with his arms as he maintains a good platform and wide base.

Richie Rukavina doesn't just use his charm on the ladies, he uses it on the golf course too. Richie's been playing golf for about 5 years now and the influence of his father and Davis Love III has inspired him to "grip it n' rip it." Richie sees golf as "the biggest mental challenge I've ever had. You have to be so head strong and dedicated to play at a competitive level." Richie plans to attend UCLA and will dominate the business world.

*The impossible often has a kind of integrity to it that the merely improbable lacks... The first idea merely supposes that there is something we don't know about... The second, however, runs contrary to something fundamental and human which we do know about.*

— Douglas Adams

*"Grok" means to understand so thoroughly that the observer becomes a part of the process being observed — to merge, to blend, to intermarry, to lose personal identity in group experience. It means almost everything that we mean by religion, philosophy and science...*

— Robert A. Heinlein

**A**s you begin the journey down your own special Road in life, remember that nothing is impossible when you "grok" the way the world works. Wherever your Road leads you, remember we will always be there for you when you need love, support, or encouragement. You will always be welcome home. We are so very proud of you.
